

Norfolk & Suffolk Branch AGM
Bury St Edmunds Fire Station
16th May 2007

Photo Shows Local members viewing USAR equipment at Bury Fire Station

The recent Branch AGM was held at Bury where members had the opportunity to see and hear the views of the international president Bill Cox who gave a talk on the benefits of the examinations and the professional development of membership. This was followed by a lecture and demonstration by the regional Urban Search and Rescue team stationed in Norfolk. Equipment shown was the heavy duty rescue & release equipment, listening devices, mini cameras and other specialist equipment that can be used at major incidents both locally and nationally.

Items discussed during the AGM were the re-election of the committee who were re-elected unopposed and part sponsorship of members who would like to attend the national AGM on the 12,13th July in Cambridge. The branch is willing to consider applications from any paid up national & local member, if you would like to be considered please contact either John Hubble @ Bury Fire Safety 352503 or Simon Hewitt @ Ipswich Fire safety on 720 0552 for further details.

Two hours CPD accreditation has been applied for all members who attended the event.
