Concerns

What are the main problems as far as your agency is concerned?

Bottom Line/s

What has to change (and is not negotiable?)

Resources

Information on any resources that could be provided by your agency to support the plan

Conditions

Before the family makes its plan, what plans or parts of plans would not be acceptable to your agency? For instance, is there any place where the child or young person would not be allowed to live, or are there any people who must not be in contact with the child or young person.

Does the family need any additional information, to ensure that the plan they construct at the FGC is acceptable to your agency?

Please note that conditions need to be legally sustainable.
