

## **Schoolsafe Facilitators' programme (For Existing or New Facilitators)**

*Due to the restraints and cut backs that we are all experiencing at the moment we have decided to no longer deliver the facilitators programme in its current format. At the last facilitators programme this month, it was suggested that it would be more cost effective to display recent updates and changes relating to the Schoolsafe programme via our website. We are also waiting to hear of any future changes following the release of Government white paper next term.*

*We will update our current website following the Government white paper.*
