

Unisafe Level Three – Advanced Physical De-escalation Skills

Target Group - ACS Provider Services

This is a one-day event and its content will be based on Training Needs Analysis

Pre-course Requisites:

Delegates need to have booked on or have attended Level one (Theory) & Level two (Physical de-escalation). Level two should have been attended within the past year.

Pre-Course Preparation:

“Health Declaration & Training Conditions” (will be sent with joining instructions), please complete and bring along on the first day of training.

Aims & Learning objectives:

This course will enable delegates to improve the personal safety of all in the workplace. It will help delegates to identify duties and responsibilities as well as the options open to you when dealing with difficult or challenging behaviour. It will allow the delegates to select the most appropriate intervention in response to the individual situation including physical restraint. The delegates will be assessed to ensure a suitable degree of competency is reached.

By the end of the course, participants should be able to:

- Identify aspects of the law relating to physical interventions
- Have an understanding of the risk management process
- Identify your own responsibilities, policies and procedures and those of your employers
- Recognise signs of behaviour escalation
- Understand the implications of Manual Handling
- Understand the issues around Positional Asphyxia
- Demonstrate effective selection of the appropriate option to de-escalate a difficult situation
- Display a required degree of competence when using a physical intervention.
