3	Resident: Mr Phil Lunnery	13																	Noted
6	Resident: Paul Swallow	13																I feel this would cut lorry movements in and out of this site by up to 50%.	Reduction on HGV movements is a material consideration
13	Resident: William James Walton	13																	
16	Resident: Robin Syrat	13																This site would cut down on lorries, travelling through the villages, and any new business that brings new jobs to our community should be encouraged.	Noted
21	Resident: Brian Green	13																This site would cut down the amount of lorries bringing in the aggregates from elsewhere through the village and cutting down the amount of time. The council having to deal with these mindless complaints.	Reduction in HGVs is a material consideration
48	Resident: Robert Peel	13																	
49	Resident: Ashley Warren	13																Would take lorries off road.	
50	Resident: Kenneth Maurice Hart	13																This would reduce the volume of traffic through village.	Noted

547	Resident:George Franks	13																This is the only mineral application which will reduce traffic movements. It should be supported.	
548	Resident: Mr Philip Alcoe	13																Poundfield Product is only 5 years old and one of the few success stories in Mid Suffolk in terms of farm diversification and employment in a rural location - Now to be hindered by small minded "NIMBY's".	
566	Resident: J.R. Webley	13																	
567	Resident: Graeme Goodyear	13																It would be of benefit not only to the company, but also the local community. As it would reduce the number of bulk vehicles needing to deliver to the site.	
568	Resident: Christopher Maclean	13																	
569	Resident: Hindley Arnold	13																Less vehicles in village means less noise pollution.
