## DOMESTIC VIOLENCE (147 incidents were reported in Forest Heath in Q2 2007/08)

*In quarter 2 (July to September 2007) there were 147 reported incidents, with repeat victimisation of 29.9%. Children were present in 28.6% and Alcohol was a factor in 44.2%.*

*Local research shows that those offenders where alcohol is a factor in domestic violence can also be anti social to neighbours, commit other offences within the home or in a public place. A conference to raise the issues of domestic violence and abuse where alcohol is also a factor and to share best practice is planned for 29<sup>th</sup> November at Trinity Park, Suffolk Showground, Ipswich.*

Initial outcomes from the Specialist DV Courts in the Ipswich & District Magistrates court area are very positive. Between April 11<sup>th</sup> (when they started) and end of June the rate of successful prosecution increased to 90% compared to an average of 79.8% for all of Suffolk (including the courts in the Western area without the SDVC model). Following recommendations by the Suffolk County Council Scrutiny and the Local Criminal Justice Board the steering group has been asked to consider how this best practice can be incorporated throughout Suffolk Magistrates court system.

We are continuing to work within church and faith groups to raise awareness of Domestic Violence issues with their staff and congregations, as part of the Thrive project. Several sessions have been delivered including Stowmarket, Ixworth and Thingo deaneries, with others planned in western area.

The Sanctuary Scheme (to enable victims of domestic violence to remain in their homes if it is safe for them to do so) is based on a national model and in Suffolk is being developed based on recent work in South Cambridgeshire. Two schemes have now been identified in the Ipswich area and measures are being implemented following joint meetings with Police, Fire Service, IBC Housing department and Ipswich Women's Aid. As part of this work training was also provided to IBC Housing staff, Estates Officers and Caretakers. The Western area have formed a sub group and employed a consultant to assist in the facilitation of this model locally.
