

Motion: It is recommended that the Council welcomes the report of the Director for Public Health and endorses the vision for Suffolk where people undertake more active travel, rely less on car travel and use sustainable public transport.

It is also recommended that:

- (a) the Policy Development Panel for Health and Adult Care considers each of the ideas in the vision for Suffolk with a view to prioritising and planning those which the Council will deliver; and
- (b) the proposals of the Policy Development Panel are subsequently considered and agreed by Cabinet by February 2014.

Members present agreed unanimously without a vote
