

Motion: Motion 2: Proposed by Councillor Mark Bee and seconded by Councillor Mary Evans:

This Council recognises that, alongside the roll-out of high-speed broadband, good mobile-phone network coverage is an essential part of the county's infrastructure

This Council therefore proposes to:

- Lead a Suffolk-wide forum to campaign for better mobile phone coverage in Suffolk
- Seek to maximise investment from the government's mobile infrastructure project
- Engage with the four network providers to invest in Suffolk's mobile phone coverage
- Invite the Secretary of State for Culture, Media and Sport to Suffolk to meet key business and political leaders and hear their views.

Members present agreed unanimously by a show of hands.
