

Analogue bed and chair mats

Cassius Carer Collection

EASY
CLEAN
COVER

Cassius Collection: Cassius Carer

1 About the Analogue bed and chair mats

- The mats are placed on your bed or chair under a blanket or cushion.
- They have pressure sensors, and show when you sit or get up from your bed or chair.
- It has a rubber protection cover so it is easy to clean.
- These mats do not require internet connection but do require batteries which are supplied with the product.
- It comes with a pager for your carers.

2 How does it work?

The mats sound an alarm through the mat to the pager if you get off your bed or chair. It will produce an audible and flashing light alarm notification.

Carers can set a delay on the alarm for three seconds, 15 minutes or 30 minutes to suit your needs.

3 Things to know

Battery

Device comes with AA battery and will need to be replaced by the user.
