

## The Cassius Video Monitor

Cassius Carer Collection

NIGHT  
VISION  
CAMERA

### 1 About the Cassius Video Monitor

- The Cassius Video Monitor provides a camera should you require additional monitoring support.
- Your carers can access the camera visuals on a hand-held monitor unit in another room.
- They will be alerted if there is activity and whether you need to call for help.
- It has night vision camera.
- It has a remote control.
- It shows the temperature of the room.
- Your carer can talk to you through the camera from their monitor.
- Your carers can also access the video through a free app.

### 2 How does it work?

Camera movement can be controlled remotely through the mains unit or the app. Your carers can pan, zoom and tilt the camera without disturbing you.

It provides live video streaming should a carer wish to go out?

Notifications are available via the app. The screen that comes with the camera alerts carers by turning on the screen when movement is detected.

### 3 Things to know

#### Charging and battery

The camera is mains powered and comes with a screen which can be used to adjust the viewing angle. The Monitor unit uses mains or battery and is portable to a range of 250 metres outdoors and 50 metres indoors. All cables are included in the pack.
