

Suffolk: Phase 3 intervention area

"White" = the postcode contains premises with available broadband speeds of less than 30Mbps

"Grey" = all premises in the postcode have available broadband speeds above 30Mbps from a single network provider

"Black" = all premises in the postcode have available broadband speeds above 30Mbps from more than one network provider

"Under review" = premises in the postcode are in the plan for coverage under the current Suffolk SEP contract (but are not yet covered) or the postcode is a Virgin Media 'serviceable post code' (but the extent of Virgin Media's coverage of that post code is Under Review), and the postcode contains premises which have available broadband speeds of less than 30Mbps on the Openreach network, or premises in the postcode are identified for NGA deployment by CityFibre, or premises in the postcode have been served with speeds reportedly above 30Mbps as a result of the first Better Broadband for Suffolk Programme contract but more recent consultations suggest their speeds are below 30Mbps
