

Connor - Specialist Educational Psychologist

What is my job?

I work with children and young people up to 25 years old. It is my job to:

- Make sure you are **listened to about important** things in your life and that **people understand you**.
- Work with your **school/college** (if you have one) **to make sure you are treated fairly**.
- Support the people around you to help with your learning, even if you're not in education right now.
Please let me know if you have any ideas!

What am I like as a person?

I would describe myself as **calm, caring and understanding**. I enjoy my job because I **love helping other people to feel good about themselves and their future**, but I try not to take myself too seriously, and I like to have a **laugh or joke too!**

What will happen if we work together?

Everyone is different, so we'll work in a way that feels **right for you**. We could:

- Do activities together to find out what **you're good at and what helps when things feel tricky**.
- Talk about your **goals and dreams**, and how others can support you.
- Think of ways to make **school, college or learning easier and more enjoyable**.
- Meeting me is **your choice**. Please let me know **anything that might help** you to feel comfortable and safe. We can **take breaks or stop whenever you need**.
- **It is totally okay if you find talking hard**, this is normal for many children and young people I meet. I will bring **visual activities** if these help you communicate, such as pictures.
