

Freedom of Information – Response – 26690

I understand that you have teams in different departments for example in Children's you have a CYP Intelligence Hub, so I want to know how many people work in that team. You also have an Insight & Intelligence team within Adult & Community Services, so likewise how many people work in this team. I'm sure you must have other intelligence teams that lead on Environment, housing, planning and data protection. However if you cannot provide that then just the two Intelligence hubs you have.

If you're unable to provide anything then please proceed to internal review as previously mentioned other LAs in the region have responded with complete data for this FOI.

I require the following data for the current 2025/26 financial Year.

1. The total number of FTE staff working within the Council's Performance, Intelligence or Business Insight team(s).

Suffolk County Council (SCC)'s Adult and Social Care (ASC) – Reply:
10

Suffolk County Council (SCC)'s Children and Young People's Services (CYP) – Reply:
31.63 FTE in CYP iHub

2. The total staffing budget for these teams for 2025/26 (or latest available year).

ASC Reply:
£590,523 including on costs

CYP Reply:
£1,893,771 budget for CYP iHub

3. The organisational location of the Performance function (e.g. corporate team or located within individual directorates).

ASC Reply:
Within the directorate – ASC

CYP Reply:
Located within individual directorates.

4. Whether the Council outsources any of the following activities and, if so, the annual spend for each area:

- o Adults' Carer/User Experience Survey*
- o Residents/Citizens/Community/Quality of Life Surveys*
- o SCAP Return*
- o Power BI Dashboard Development.*

ASC Reply:
No, we do not outsource any of the activities below:

CYP Reply:

No outsourcing for CYP in 2025/26 financial year to date.

5. Any other functions not broadly detailed within the explanation above that your Performance/ Analytics/ Intelligence/ Policy teams undertake.

ASC Reply:

None.

CYP Reply:

The team may take on other broad functions however this is not specific recorded information held.
