

## **Environmental Information Regulations – Response - 26815**

*Following a public enquiry, for the closure of the Railway Crossing and subsequent footpath diversion, an order was created with the new footpath being given the numbers 22 and 22a.*

*Suffolk County Council have renamed the footpath 39.*

*1. Please supply a copy of the modification order that Suffolk County Council would have used to change the footpath number.*

There is no modification order. The parish boundary on the definitive map is currently recorded just to the south of the railway corridor. Currently, therefore, the footpath is recorded in Creeting St Mary as FP39. When Suffolk County Council undertake work to update the definitive map parish boundaries to reflect the modern parish boundaries, this path will become known as Needham Market FP22A.

*2. Please also supply any other relevant legal paperwork in relation to this change.*  
See Q1 above - no information held.
