Freedom of Information – Response – 26867

This request is in relation to the Council's parking statistics, in particular, the council's cashless / mobile / "pay by phone" parking facilities.
• What is the name of the company/supplier who provide the Council's current cashless parking system?
• What date did the current cashless parking contract start?
• When date does the current contract end? (including any potential extensions).
• For cashless parking does the supplier or the Council act as the Merchant Acquiring provider?
 • Does the Council have Pay & Display (P&D) machines in operation?
If yes – how many machines are in situ?

Suffolk County Council do not manage any public car parks; this is done by the District and Borough Councils. We do have car parks that are for staff only that use contactless systems, but this is managed by Vertas our wholly owned company and you would need to contact them directly for details of the company they use.
