

Freedom of Information – Response – 26905

I am writing to request information under the Freedom of Information Act 2000 regarding the expenditure on essential hygiene supplies for the Council's main office facilities. Specifically, I would like to request the following information for Endeavour House for the last three full financial years (2022/23, 2023/24, and 2024/25):

- 1. Total annual expenditure on toilet paper/rolls.*
- 2. Total annual expenditure on hand soap/sanitising liquids provided in toilet facilities.*
- 3. The current total number of individual toilet cubicles (both male, female, and gender-neutral/accessible) located within Endeavour House.*

If the specific data for Endeavour House is not held separately from a wider county-wide contract, please provide the total contract value for these items across the Council's estate and specify which buildings are covered.

Suffolk County Council have a service level agreement with our wholly owned company Vertas, who carry out our facilities management services, including provision of essential hygiene supplies. We request the service from Vertas but are not involved in how these products/services are sourced. You may wish to make the request to Vertas to find out more information. If you wish to do so this can be done via the following link: [Homepage - Vertas](#)
