

Environmental Information Regulations – Response - 26934

I note that your offices are in Halesworth, which is a significant distance from Cavendish - I wonder, under auspices of the Freedom of Information Act, would you mind telling me:

1. how many letters your department has posted out in January 2026 to all the households in Suffolk that have to cut back their hedges?

13

2. I wonder what the postage for that costs - and would that possibly go a little way towards repairing some of the potholes

£11.31 - Second class @ 87p

3. I would also be grateful to know whether you send out letters to council house residents, or is it just private households?

Vegetation letters are sent to the address of the owner/occupier of a property or piece of land which can be privately- or authority-owned properties or land.
