

## **Environmental Information Regulations – Response - 26954**

*Under the Freedom of Information Act 2000, I would be grateful if you could provide the following information relating to highways maintenance within the Gipping Valley division:*

### *A. Pothole Reports and Repairs*

*1. The number of pothole reports received within the Gipping Valley division for each of the past five financial years.*

See table below:

<b>Financial Year</b>	<b>No. of pothole reports*</b>	<b>No. of repairs</b>
2020/21	97	162
2021/22	149	196
2022/23	161	211
2023/24	450	289
2024/25	345	245

(\* Figures will include multiple reports for the same location)

**NB:** Not all reports result in a repair of the pothole. Only those that meet with Suffolk County Council (SCC)'s intervention criteria for repair are repaired. This is as per SCC's Highways maintenance Operational Plan (HMOP) which can be found at <https://www.suffolk.gov.uk/roads-and-transport/highway-maintenance/highway-asset-management/highway-maintenance-operational-plan>

*2. The average time taken to complete pothole repairs within the division in each of those years.*

This metric is not recorded as differing sizes of potholes on different roads have different repair timescales. What has been supplied is a list of all pothole repairs in this division with the date the pothole was identified for repair and when it was repaired. This is also combined with the repair category as per Appendix 2 of HMOP.

*3. The number of locations within the division that required repeat pothole repairs (defined as more than one repair at the same location within a 12-month period) in each of the past five financial years.*

This metric is not kept, what has been provided in the file named "26954\_Report.pdf" a list of all repairs with location details and co-ordinates.

4. *The current number of outstanding pothole repair reports within the division.*  
 As of 06/03/2026 there are 39 reports of potholes to be inspected and evaluated for repair. There are a further 31 commissioned repairs to be completed.

**B. Highways Maintenance Budget (Division-Level if Held)**

5. *The actual highways maintenance expenditure within the division in each of those years.*

*(If division-level budget data is not held, please provide the most granular geographic breakdown available.)*

As shown in the table 1 below, please note that costs incurred prior to 1 October 2023 were not recorded against individual defects or grouped defect types, such as potholes or by division. Instead, the figures provided for that period reflect the overall reactive highways service. From 1 October 2023 onwards, costs specifically related to potholes have been recorded and are shown in table 2.

*Table 1*

<b>Financial year</b>	<b>Estimated cost</b>
2020/21	£7.7m
2021/22	£9.3m
2022/23	£10.6m
2023/24*	£6.96m

(\* Period 01/04/2023-30/09/2023)

*Table 2*

<b>Financial year</b>	<b>Estimated cost for Gipping Valley Division</b>
2023/24*	£44,037.26
2024/25	£98,606.70

(\* Period 01/10/2023-31/03/2024)

**C. Compensation Claims**

7. *The number of compensation claims received relating to vehicle damage attributed to potholes within the Gipping Valley division in each of the past five financial years.*

Claims are not recorded by electoral division therefore, information is provided for known towns and villages within the division - Flowton, Bramford, Little Blakenham, Gt Blakenham, Claydon, Barham, Henley, Skeets Green, Hemingstone, Bells Cross and Akenham. See table below relating to the numbers of vehicle carriageway claim incidents received between 1 April 2021 and 25 February 2026 each financial year, irrelevant of the dates occurring or settled. These include potholes, surface defects, and edge-of-carriageway issues.

Year	Number received
2021/22	6
2022/23	9
2023/24	15
2024/25	22
2025/26	7

**8. The number of those claims that were upheld in each year.**

Claims are not recorded by electoral division therefore, information is provided for known towns and villages within the division - Flowton, Bramford, Little Blakenham, Gt Blakenham, Claydon, Barham, Henley, Skeets Green, Hemingstone, Bells Cross and Akenham. See table below relating to the numbers of claims upheld for vehicle carriageway incidents received between 1 April 2021 and 25 February 2026 each financial year, irrelevant of the dates occurring or settled. These include potholes, surface defects, and edge-of-carriageway issues. Claims cover both property damage and injury. Payments made include any of - compensation, claimant legal costs, defence legal costs and other costs associated with claims and their representation. Due to the manner the system has historically recorded data, also claims which are settled inclusive of costs, it is not possible to disaggregate costs.

Year	Number upheld
2021/22	1
2022/23	0
2023/24	1
2024/25	3
2025/26	0

**9. The total value of compensation paid in each of those years.**

Claims are not recorded by electoral division therefore, information is provided for known towns and villages within the division - Flowton, Bramford, Little Blakenham, Gt Blakenham, Claydon, Barham, Henley, Skeets Green, Hemingstone, Bells Cross and Akenham. See table below relating to the sums paid for vehicle carriageway claim incidents received between 1 April 2021 and 25 February 2026 each financial year, irrelevant of the dates occurring or settled. These include potholes, surface defects, and edge-of-carriageway issues. Claims cover both property damage and injury. Payments made include any of - compensation, claimant legal costs, defence legal costs and other costs associated with claims and their representation. Due to the manner the system has historically recorded data, also claims which are settled inclusive of costs, it is not possible to disaggregate costs.

Year	£ Paid
2021/22	£232
2022/23	£0
2023/24	£83
2024/25	£349
2025/26	£0
