2. *Also, are there any capacity issues at those schools that local planning policies should consider?*

The pupils arriving from Onehouse are not creating capacity issues at the local schools attended by them. Local housing developments that are approved have also been factored into the future capacity of those local schools.

3. *Do you have information on how students travel to school?*

Suffolk County Council (SCC) only holds details for those pupils who are eligible for SCC funded school travel. For the children eligible for SCC funded school travel they get to their designated school by either public bus, closed contract school bus or a taxi.
