

Environmental Information Regulations – Response – 27103

Thank you for your response.

We note that the figure you have provided in response to question 3 is greater than that provided in response to question 4. As question 4 is requesting the total number of inspections, we would expect the figures provided in answer to this question to be either the same or larger than the number of premises which were inspected at least one time.

We would like to clarify the questions and request that you provide new responses to Question 3 and 4. We have re-attached the questions in a pdf format for ease of reference. Please accept our apologies. In transferring over the data, we got the figures the wrong way round. The correct information is contained below.
