

Environmental Information Regulations – Response - 27137

These types of requests are not actioned under the Freedom of Information Act. Please see this extract taken from the Suffolk Trading Standards website -

<https://www.suffolk.gov.uk/community-and-safety/suffolk-trading-standards/trading-standards-certificates-or-licences/apply-for-a-petroleum-licence>

If you click on 'Historical Information' you will be able to download the appropriate form that needs to be completed and returned to us, the email address it also provided. Please note there is a fee payable for this information and if the site is currently operating, we will require consent from the current licensee before we can release any information.

Petroleum Officer Site Questionnaire

Subject: Questionnaire for Shell Orwell, Orwell Bridge, Rd, Ipswich IP10 0JN

1. General

1.1. When was the site first licensed as a petrol filling station?

1.2. Please detail the names of the previous site owners

1.3. When was Stage 1b Vapour Recovery installed at the site?

1.4. When was Stage 1b Vapour Recovery last tested and the result?

1.5. Do you have any plans of the site that you would consider to be useful (e.g. historical layouts of old tanks or pipework etc)

2. Tank information

2.1. Please give the details of all known Underground Storage Tanks (USTs) in the tables below:

Tank No.	Contents (Fuel Type)	Capacity (Litres)	Date Tank Installed	Tank Construction (Single wall or double wall) [Steel or GRP]

2.2. Please give details of any UST secondary linings:

Tank No. with lining	Date of Lining	Type of Secondary Lining (Single wall lining or double wall lining)

2.3. Please give the details of all known Above-ground Storage Tanks (ASTs) in the tables below:

Tank No	Contents (Fuel Type)	Capacity (Litres)	Date Tank Installed	Tank Construction (Single wall or double wall) [Steel or GRP]
----------------	-----------------------------	--------------------------	----------------------------	--

2.4. When were the tanks last tested and what were the results?

2.5. Do the tanks have overflow-protection devices?

2.6. Are there any known disused underground storage tanks? If so, when and how were they decommissioned (e.g. water, foam, cement- slurry fill etc.)?

3. Liquified Petroleum Gas (LPG)

3.1. Has LPG ever been present on site? If yes, please confirm the following:

3.2. How was it stored? (UST or AST)

3.3. The date tanks installed

3.4. Have the tanks been removed or decommissioned in situ?

3.5. How were the tanks decommissioned (e.g. water, foam, cement- slurry etc.)?

4. Fuel Distribution Pipework

4.1. What are the underground fuel lines constructed from?

4.2. When were they installed?

4.3. When were they last tested?

4.4. Have there been any repairs to the lines?

5. Interceptors

5.1. What type of interceptor does the site have (three-stage/superceptor/soakaway)?

5.2. What is the capacity of the interceptor?

5.3. When was it last cleaned?

5.4. Where does the interceptor drain to?

6. Petroleum Certificate

6.1. Please give details regarding the Petroleum Certificate: i.e. dates, volumes, and any other relevant information. Please attach a copy if available.

7. Incidents, Spillages and Site History

7.1. Have there been any recorded major spills, leaks from lines/tanks/recorded remedial works carried out at the site? If yes, please provide details below (date, volume, fuel type etc).
