

Environmental Information Regulations – Response – 27168

I am writing to submit a request under the Freedom of Information Act 2000 regarding the former John Grose building located on Station Road, Framlingham, IP13 9EE.

Having recently moved into the area, I have taken a keen interest in the upkeep and development of the town. The current condition of this site is of particular concern, as it appears to have remained unused for a considerable period and is, in its present state, detrimental to the character of the surrounding area.

I would be grateful if you could provide the following information:

- 1. Details of the current ownership of the site.*
- 2. Any planning applications submitted for the property since 2020, including their status and outcomes.*
- 3. Any correspondence or agreements between the council and the current owner regarding development, maintenance, or intended use of the site.*
- 4. Whether the council has imposed or considered any enforcement action in relation to the condition or inactivity of the property.*
- 5. Any information held by the council regarding future plans for the site.*

Additionally, there is local speculation that the property may have been acquired by the Co-operative Group in or around 2020, and that no development has since taken place. If the council holds any information confirming or clarifying this, I would appreciate its inclusion in your response.

We are writing to advise you that, following a search of our paper and electronic records, it has been established that the information you requested is not held by Suffolk County Council.

If you have not already done so, then you may wish to write to the Borough and District Councils of Suffolk:

- Babergh Mid Suffolk District Council
