Please could you advise of the following, all of which refer to Children's Services only and not the equivalent Adults Services role.

1. Does the principal social worker for children's services have any additional responsibilities within their job title (i.e also a head of service or service manager).

No

2. What is the salary banding and range (in £s) for this role (please be advised I am not seeking to know the exact salary of any post holder, only the band range the role is matched against).

£60,135 - £71,634

3. Is the principal social worker role also entitled to any additional payments such as MRS (market rate supplement) payments, if yes please confirm what the payment range is in pounds.

No.
