

Environmental Information Regulations – Response - 27634

I understand that Pepsi products are no longer available in the council's buildings and that Coca-Cola products are being stocked instead. I'd like the following, covering the period from 7 May 2026 to the date of this request:

Suffolk County Council has not replaced Pepsi products with Coca-Cola; Coca-Cola is provided as an additional choice rather than as a replacement.

When feedback/requests for additional products are received these are fed back to our supplier (Vertas), who decide whether the proposal should be implemented.

All correspondence and records about the decision to stop stocking Pepsi products, or to stock Coca-Cola products instead, in any council building, cafe, restaurant or vending machine. That includes emails, Teams or other messages, and notes of any calls or meetings. Please search the records of the Leader of the Council, his personal assistant and office staff, the Joint Chief Executives, the procurement team and facilities management, and include correspondence with Vertas (who I understand run the catering) as well as anything Vertas holds on the council's behalf.

N/A

- Who asked for the change, when they asked, and what reason (if any) was recorded.

N/A

- Whether the change required any variation to a contract, supply or sponsorship arrangement, whether any existing agreement had to be ended early, and whether there's any cost difference or penalty as a result.

N/A

- Which buildings or sites the change applies to, and the date it took effect.
