

## **Environmental Information Regulations – Response - 27707**

*I am writing to request a copy of the findings relating to Highway Report No. 00535134, which concerned my report of golf balls travelling from Fornham All Saints Golf Course towards the B1106.*

*I understand that this matter was referred to a Highways Assessment Engineer for investigation.*

*I have recently attempted to locate the report using the public Suffolk Highways reporting system. However, the reference number now appears to be invalid, and I have therefore been unable to access the investigation or its outcome.*

*I should be grateful if you would please:*

- 1. Confirm that Highway Report No. 00535134 remains on your records.*
- 2. Provide the date on which the investigation was completed.*

*As per attached .pdf file named '27707\_Report'*

- 3. Provide a copy of the investigating engineer's report, findings or any recorded conclusions.*

*Suffolk County Council holds no data on this issue.*

- 4. Confirm whether the investigation considered the reported hazard of golf balls entering the B1106, or whether it was confined to the physical condition of the highway.*

*Under the UK Freedom of Information Act 2000, public authorities are required to provide recorded information that they already hold, rather than create new information or formulate answers to questions. If a request is framed as a question, the organisation's obligation is to consider whether it holds recorded information that addresses the subject of the request and disclose that information where appropriate. Therefore, there is generally no requirement to provide explanations, opinions, interpretations, or bespoke responses. Instead, the authority can fulfil its duty by providing the relevant data, documents, records, reports, or other recorded information it holds*

*As per attached .pdf file named '27707\_Report'*

### Redacted Information

*All information released in response to a Freedom of Information Act 2000 (FOIA) or Environmental Information Regulation 2004 (EIR) request is deemed to be in the public domain. As such we must consider whether or not the requested information qualifies as personal information and should therefore not be released into the public domain.*

*The council has determined that this is personal information and is therefore exempt from disclosure under **section 40** of the FOIA and **regulation 13** of the EIR.*

The Council considered the following, including the possible consequences of disclosure for the data subjects concerned and their reasonable expectations as to the use of their data:

- expectations of the individuals concerned about personal information being put into the public domain.
- reasonable expectations - the data subjects concerned would have a legitimate expectation of privacy concerning their personal information and would not have anticipated this being put into the public domain.
- whether or not the requested information could be anonymised; and
- balancing the individual's rights and the legitimate interests - In past cases the Information Commissioner has weighed the individual's rights to privacy against the public interest in disclosure. There is no presumption in favour of releasing personal data.

This is an absolute exemption, which means that if the condition is satisfied there is no additional public interest test to consider.

In assessing fairness, the Council considered the likely consequences of disclosure of the requested information. Personal information should not be used in ways that have unjustified adverse effects on the individuals concerned. The council also considered whether such disclosure would be within the reasonable expectations of the individuals, given that any response to a request under the FOIA or EIR is deemed to be in the public domain. The council believes that in this instance it is not fair to disclose personal data and is therefore withholding the requested information under section 40 of the FOIA and regulation 13 of the EIR.

| 4        | 17/09/2025         | 13:28 | Event recorded   | Full email from customer To: Suffolk County Council Highways Subject: Highway Safety Risk – Golf Balls Crossing the B1106 at Fornham All Saints Golf Course Dear Highways Team, Following the recent reply to my correspondence dated 22 August 2025 from the SCC Complaints Team, I wish to formally raise a highway safety concern about golf balls crossing the B1106 at Fornham All Saints Golf Course. In my correspondence dated 22 August 2025, I included photographs of errant balls outside both numbers 1 and 2 Lark Gate. On 14 September 2025, I personally photographed an errant golf ball that had crossed the northern boundary of the golf course, travelled over the B1106 highway, and landed outside No. 2 Lark Gate. I attach the photograph for your records. As I have already indicated, this is not an isolated incident. Residents of Nos. 1 and 2 Lark Gate, as well as the former Parish Council Chairman, can verify that such occurrences are ongoing and frequent. The risk posed to vehicles and pedestrians using the B1106 is clear and foreseeable. While I understand that planning control lies with West Suffolk Council, this matter relates directly to highway user safety, which is within the remit of Suffolk County Council. I therefore ask that this incident be logged formally in the highways reporting system, and that a safety assessment of the B1106 adjacent to the northern boundary of the golf course be undertaken as a matter of urgency. Please confirm receipt and recording of this evidence. Additionally, I would appreciate your update on the safety assessment and any further information you may require. Yours sincerely, Fornham All Saints | **** Internal Note **** | 17/09/2025 |           |

| 14 | 18/09/2025 | 14:48 | Event recorded | <p>C01 - Added to Inspection Programme Thank you for logging a report. Your report reference number is: 00535134 THE STREET, FORNHAM ALL SAINTS Date reported: 17/09/2025</p> <p>Description: Highway Safety Risk . Golf Balls Crossing the B1106 at Fornham All Saints Golf Course Thank you for contacting us about this issue. We have visited the location of your report and assessed against Suffolk County Council's Highway Maintenance Operational Plan (HMOP). Unfortunately, at this time we are unable to take further action as this does not meet our intervention criteria. We will, however, continue to monitor the location as part of our routine inspections. &lt;br&gt;&lt;br&gt; We receive thousands of highway-related reports each month, with significantly increased demand in winter months. We assess each and every report and when appropriate, repair or rectify the reported issue. While we would like to resolve every problem as soon as it is identified, financial and practical considerations mean that we must prioritise our work, with a risk assessment based upon location, road category and severity of the possible defect. Broadly we repair/replace: &lt;br&gt; Potholes - that are 40mm or deeper. &lt;br&gt; Footways - holes when they are 20mm or deeper and trips when 20mm or higher. &lt;br&gt; Road signs - when mandatory signs are obstructed or missing. Others are prioritised; 1. Warning signs not included in HMOP, 2. Signs associated with Traffic Regulation Orders, 3. Directional Signs 4. Information Signs &lt;br&gt; Road markings - Priority and safety markings, yellow parking lines. &lt;br&gt;&lt;br&gt; Should you wish to find out more about the HMOP and our intervention criteria go to &lt;a href="https://www.suffolk.gov.uk/roads-and-transport/highway-maintenance/highway-asset-management/highway-maintenance-operational-plan/" target="_blank"&gt;https://www.suffolk.gov.uk/roads-and-transport/highway-maintenance/highway-asset-management/highway-maintenance-operational-plan/&lt;/a&gt; This has matrices that indicate the appropriate minimum response for each type of defect. Information about how our services are organised and managed can be found on our</p> | ZMA3 Clearance e-mail to Customer | 18/09/2025 | SYMOLOGY |

Email received Dear Customer Services, would you please forward this email to the Suffolk County Council Highways Team? I write again after receiving a negative response from the West Suffolk Council, after raising urgent concerns about highway safety on the B1106 adjacent to Fornham All Saints Golf Course and the Lark Gate development, following the recent removal of trees along the golf course's northern boundary.

Immediate Safety Concerns • The trees previously acted as a buffer, reducing exposure to stray golf balls, wind-funnelling, and driver distraction. • Their removal has left road users (motorists, cyclists, pedestrians) and residents at Lark Gate exposed to new and unacceptable risks. • This section of the B1106 is a busy route, and any projectile hazard or sudden driver distraction could have serious consequences. Relevant Planning Precedent Planning Inspectors have recognised in multiple appeal decisions that vegetation or planting alone cannot be relied upon to mitigate projectile risks: • In APP/P1940/W/18/3208543 (Grims Dyke Golf Course, Three Rivers, 2018), the Inspector found supplementary planting to be an inadequate mitigation. • In APP/P2935/W/19/3231358 (Stoney Hills, Alnwick, Northumberland, 2019), the Inspector required a detailed and enforceable mitigation scheme specifically addressing golf ball strike risk. These decisions confirm that engineered solutions are necessary where the safety of road users or neighbouring residents is at stake. Requested Action I respectfully ask Suffolk Highways to: 1. Undertake an urgent safety inspection of the B1106 adjacent to the golf course boundary at Lark Gate. 2. Advise on appropriate mitigation, which may include engineered fencing/netting in line with Inspector precedents. 3. Liaise with the Local Planning Authority to ensure that enforceable measures are secured from the golf course operators. Given the risks to public safety, I would be grateful for a response within 21 days setting out the steps that will be taken and the expected timescale for action. Yours sincerely, [REDACTED] Fornham

| 30 | 03/10/2025 | 08:57 | Event recorded | Customer has emailed Subject: Ref 535134 – Urgent Follow-Up on Highway Safety Hazard (B1106) Dear [REDACTED] / Highways Assessment Engineer, Thank you for your email of 1 October confirming that my correspondence of 25 September has been added to my ongoing report (ref 535134). I remain very concerned that golf balls continue to be struck onto the B1106, posing a serious risk to road users. Could you please confirm: 1. The timescale for the Highways Assessment Engineer's investigation. 2. Whether interim safety measures will be considered to protect drivers, cyclists, and pedestrians. 3. When can I expect a substantive update on the outcome of this investigation? Given the risk to public safety, I would appreciate your urgent attention to this matter. Yours sincerely, [REDACTED] | T41 Transfer to Highways Enforcement Manager | 03/10/2025 | [REDACTED] |

Another email we have been cc'd in but more for planning Subject: Urgent Concern – Highway Safety and Planning Approval for an entrance to the FORNHAM ALL SAINTS golf course off the B1106 Highway. Dear Sir/Madam, I am writing to raise serious concerns regarding the Planning Inspectorate's decision to approve the entrance to FORNHAM ALL SAINTS off the B1106 highway. The approval appears to have failed to adequately consider the highway safety implications of golf balls being struck onto the B1106. Previous Inspectors had specifically recognised that planting of hedging was not a sufficient mitigation against such risks, yet in this case permission was granted without any robust engineered solution being secured. In support of my concern, I wish to draw your attention to several relevant appeal decisions:

- APP/C3105/A/13/2203995 (Drayton Leisure Golf Club, Banbury) Inspector required 20m ball-stop netting
- APP/P1940/3208543 (Grims Dyke Golf Course, 2018) Appeal dismissed; planting inadequate to resolve risks

APP/P2935/W/19/3231358 (Northumberland, 2019) Conditions imposed requiring detailed golf ball mitigation before occupation. In each of these cases, Inspectors identified that the risks associated with golf balls leaving a course and reaching a public highway are significant and require robust, engineered solutions (such as netting or protective structures), not reliance on planting or hedging, which cannot guarantee public safety. Despite this clear precedent, the decision to allow the B1106 access point appears to have relied upon inadequate mitigation. The consequence is now evident: golf balls are landing on the highway, creating a real and ongoing hazard to drivers, cyclists, and pedestrians. Accordingly, I respectfully request that the Planning Inspectorate:

1. Review the decision-making process in this case, particularly why precedents set by the above appeal decisions were not applied.
2. Clarify what remedies are available where an Inspector's decision has failed to secure adequate safety measures.
3. Confirm what action can now be taken to ensure the safety of the public using the

B1106. At present, both Suffolk County Council Highways and West Suffolk Council are declining responsibility, while the public remains exposed to a risk which previous Inspectors have explicitly acknowledged in other cases as unacceptable without engineered mitigation. I would be grateful for your urgent response. Yours faithfully, [REDACTED]  
[REDACTED], Fornham All Saints, Bury  
St Edmunds, [REDACTED] Email:
