Freedom of Information Request – Response – 27736

I am requesting the following information under the Freedom of Information Act.
*1. For each year since 2023/24 (inclusive), a list of charities, community interest companies (CICs) and community groups that received funding from the council *other than* under a service level agreement under the funding streams covered in part 2 below*
With regard to question 1, for each year since 2023/24 please state:
a) The name of the charity/CIC/community group – if a charity etc received more than one grant during a financial year, please list each grant separately (e.g. a charity that received three unrelated funding allocations in 2024/25 should be listed three times for that year)
b) The amount of funding received in each allocation by each charity
c) The month the funding was awarded
d) The name of the funding scheme under which each allocation was awarded
e) The intended purpose of the funding
f) The intended duration of the funding (if known)
g) Whether the charity/CIC/community group was funded for work with a protected group, and what protected group it was (e.g. refugees, local Kurdish community, LGBT youth)
2. The funding streams covered by this request are:
- Suffolk Public Health, Communities and Public Safety grant programme (excluding schools and public sector organisations; where a charity is part of a consortium please list the entry for the consortium and include all consortium members
- Councillors' locality budgets (please name the councillor in each case; for simplicity's sake, it's fine to list all recipients of these instead of filtering by type of recipient)
- Suffolk culture project fund
- Household Support Fund (where distributed to organisations)

Please see the attached spreadsheet containing the information held by Public Health, Communities and Public Safety in relation to the relevant funding streams.

Suffolk Public Health, Communities and Public Safety grant programme

The Council does not operate a grant programme formally titled the “Suffolk Public Health, Communities and Public Safety grant programme”. Relevant grant funding identified within the scope of this request is included in the attached spreadsheet under the applicable funding scheme.

Councillors' locality budgets

Details of councillors’ locality budget expenditure for the financial years 2023/24, 2024/25 and 2025/26 are attached.

Information relating to the current financial year is published on the Council’s website: https://www.suffolk.gov.uk/council-and-democracy/councillors-and-elected-representatives/councillors-locality-budget/

Suffolk Culture Project Fund

The information held in relation to the Suffolk Culture Project Fund is provided in the attached spreadsheet.

Household Support Fund

The information held in relation to relevant Household Support Fund allocations to organisations is provided in the attached spreadsheet.

Question 1(g) – protected groups

The information held by the Council records the target group or community of interest for each grant rather than whether the funding was specifically for work with a protected group. The information held has therefore been provided in this form in the attached spreadsheet.

Locality Budgets 2023-2024
