

Freedom of Information Request – Response – 27848

Follow on request to 27010

I am referring to the information previously disclosed by Suffolk County Council in response to Freedom of Information request 27010 “Freedom of Information - Response - 27010”, concerning the Council’s vehicle fleet.

In that response, the Council provided the following fleet numbers:

Trading Standards - 4 vehicles

Suffolk Fire and Rescue Service - 158 vehicles

Corporate Property - 40 electric vehicles leased on behalf of the Council

Growth, Highways & Infrastructure - 85 vehicles, including 61 Suffolk Highways vehicles

I would now like to request the vehicle-level information relating to these vehicles.

For the vehicles included within the above figures, please provide:

Vehicle make

Vehicle model

Vehicle Registration Mark (VRM)

Date of acquisition, lease commencement, or date the vehicle entered service

Where possible, please identify the relevant service area/team for each vehicle, for example Trading Standards, Suffolk Fire and Rescue Service, Corporate Property or Suffolk Highways.

Trading Standards Reply:

Number	Vehicle make & model	VRM	Date of acquisition, lease commencement
4	Ford Kuga Ford C-Max Ford Fiesta Citroen Dispatch	Withheld under section 31(1) – see below notes*	All coming into service around 2017

*Suffolk County Council is withholding this information under s.31(1) Law Enforcement, of the Freedom of information Act 2000.

Section 31(1) provides an exemption where disclosure would, or would be likely to, prejudice:

- **s.31(1)(a)** Prevention or detection of crime.
- **s.31(1)(b)** Apprehension or prosecution of offenders.
- **s.31(1)(g)** Exercise of functions for purposes specified in s.31(2), including:

- Determining whether a person has failed to comply with the law.
- Determining whether circumstances exist that justify regulatory action.
- Protecting the public from risks to health and safety.

Trading Standards teams investigate matters such as:

- Counterfeit goods
- Rogue traders
- Product safety offences
- Consumer protection breaches
- Age-restricted sales
- Fair trading offences
- Illegal tobacco and vapes
- Fraud and scams

Disclosing the VRM information of Trading Standards' vehicles would be likely to prejudice the prevention and detection of crime, as these vehicles are used in raids to premises trading illegally. Often these premises have people looking out for Trading Standards officers and any operation would be jeopardised by making public vehicle details. It would provide criminals with advance warning that officers are in vicinity and giving them time to remove or hide those illegal goods being searched for.

As well as being a prejudice-based exemption s.31 is also subject to the public interest test:

Factors in favour of disclosure:

- Transparency and accountability.
- Public understanding of Trading Standards' activities.

Factors in favour of withholding:

- Reveal investigative methods or tactics.
- Enable offenders to evade detection.
- Prejudice ongoing investigations.
- Undermine future enforcement operations.

Having considered these factors, we have concluded that the public interest in maintaining the exemption outweighs the public interest in disclosure. Releasing this information would be likely to increase the risk of criminal exploitation and therefore prejudice the prevention and detection of crime.

Corporate Property Reply:

Vehicle list is below; we are now down to 24 vehicles. Part of the leased fleet has been handed back.

Vehicles entered service in tranches in 2023 (between February and November). Corporate Property do not store the exact dates as the lease is treated as a single entity. Exact dates would need to be requested from Vertas.

Suffolk Fire and Rescue Service – Reply:

Please see the attached spreadsheet

Please note, vehicles assigned to individual officers have not been included, as this information is deemed to be personal and has been withheld under Section 40, as outlined below:

All information released in response to a Freedom of Information Act 2000 (FOIA) or Environmental Information Regulation 2004 (EIR) request is deemed to be in the public domain. As such we must consider whether or not the requested information qualifies as personal information and should therefore not be released into the public domain.

The council has determined that this is personal information and is therefore exempt from disclosure under **section 40** of the FOIA and **regulation 13** of the EIR.

The Council considered the following, including the possible consequences of disclosure for the data subjects concerned and their reasonable expectations as to the use of their data:

- expectations of the individuals concerned about personal information being put into the public domain;
- reasonable expectations - the data subjects concerned would have a legitimate expectation of privacy concerning their personal information and would not have anticipated this being put into the public domain;
- whether or not the requested information could be anonymised; and
- balancing the individual's rights and the legitimate interests - In past cases the Information Commissioner has weighed the individual's rights to privacy against the public interest in disclosure. There is no presumption in favour of releasing personal data.

This is an absolute exemption, which means that if the condition is satisfied there is no additional public interest test to consider.

In assessing fairness, the Council considered the likely consequences of disclosure of the requested information. Personal information should not be used in ways that have unjustified adverse effects on the individuals concerned. The council also considered whether such disclosure would be within the reasonable expectations of the individuals, given that any response to a request under the FOIA or EIR is deemed to be in the public domain. The council believes that in this instance it is not fair to disclose personal data and is therefore withholding the requested information under section 40 of the FOIA and regulation 13 of the EIR.
