

## **Environmental Information Regulations – Response - 27896**

*I would like to please request the following information:*

*From 1st June 2024 - 30th June 2026 (broken down by month if possible please):*

- *How many applications did your council receive for dropped kerbs?*
- *If possible, how many of these were refused? How many of these were approved?*
- *Following the applications that were approved, how many were actually constructed?*

*Please share the data in a spreadsheet format.*

*If data up until June is unavailable, please provide it for the most recent one year period that is available (e.g. 1st March 2025 - 31st March 2026).*

Please note the list includes totals for each month where a roadspace permit was booked by a contractor preparatory to doing the work. It doesn't specify whether or not the work took place (not all have been inspected/completed), and excludes work done without a permit booking, which we would therefore not have any record of.
