

Freedom of Information Request – Response – 27967

Under the Freedom of Information Act 2000 I would like to request the following information held by Suffolk County Council.

1. A list of current contracts for ICT services, network and connectivity, telephony and unified communications, data centre or hosting, enterprise software (finance, HR, housing, social care or similar) and programme or project management services. For each contract please give the supplier name, a short description, the start date, the end date, any extension options, the annual or total value and the job title of the contract owner.

If this information is published in the organisation's contracts register under the Local Government Transparency Code, a link to the current register is a complete answer.

If the request would exceed the appropriate cost limit, please limit it to contracts with an annual value over GBP 50,000 or tell me how to narrow it.

We can confirm that Suffolk County Council holds this information. However, the information is readily accessible to you, as it is already in the public domain.

Section 21 of the FOIA states that a public authority does not need to provide information under section 1 of the Act if that information is reasonably accessible to the applicant by other means.

This information can be found on the Transparency pages of the Suffolk County Council website via the following link:
