

Suffolk County Council meeting Thursday 19 May 2022, vote taken on Motion 1.

Motion 1 – Proposed by Councillor Richard Smith MVO and seconded by Councillor Alexander Nicoll.

Motion text: Suffolk County Council calls upon Network Rail to commence work as soon as possible on realigning the junction at Haughley. This work, long promised, is crucial to the future efficient working of the Port of Felixstowe and Freeport East, helping them to remove more Heavy Goods Vehicles from our roads, and more generally towards Suffolk's continuing economic development. A financial contribution of £1 million has been offered towards this project from funds available to Suffolk Public Sector Leaders and demonstrates the commitment from across our County to this important infrastructure improvement.

Members present agreed the motion by general assent.
