Types of Businesses

	Profit making or commercial Enterprise	These businesses make a profit for their shareholders or owners. Making money is considered a measure of their success. e.g., Tesco, Facebook.
	Public Sector	These businesses offer services for their community – e.g. education, social care, health care – and are mainly funded by taxes. e.g. Suffolk County Council, NHS.
2	Charity	These businesses are funded by people who believe in the cause that the charity promotes by fundraising, giving money, or donating goods or volunteering time. Charities also employ many people who are paid for their work. e.g., RSPCA, Children in Need.
	Social Enterprise	A business that has aims to improve their community or their environment whilst also making a profit. Their profits are mainly used to fund more work that meets their aims. e.g., Realise Futures, Noise Solutions
