delivering infrastructure together

MAXIMISING SKILLS AND EMPLOYMENT BENEFITS

ENGAGEMENT
Working with the applicant

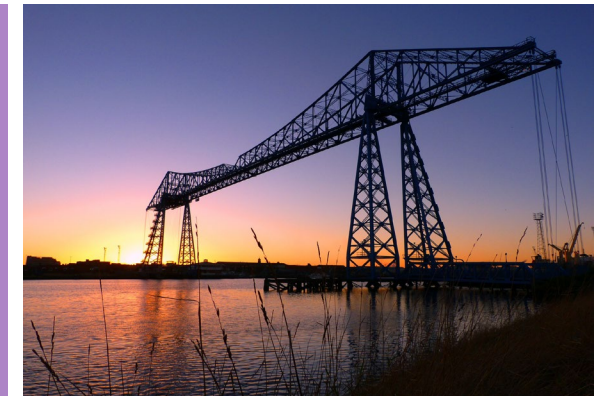

DELIVERY
Moving from planning to doing

PLACE
Defining the opportunity

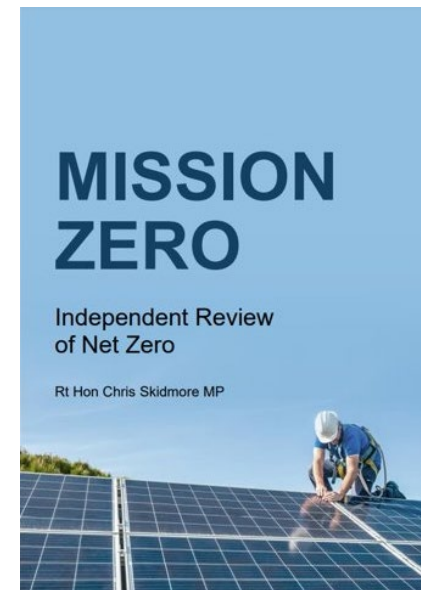

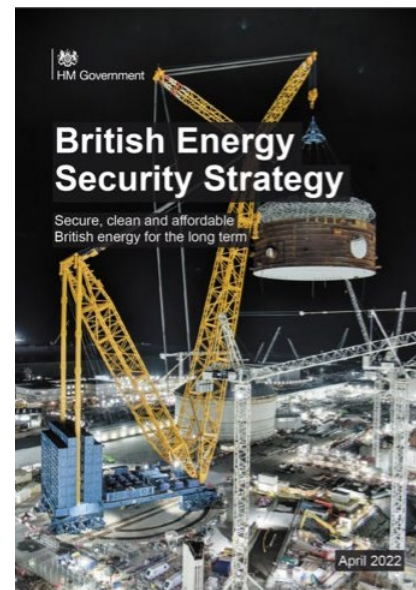

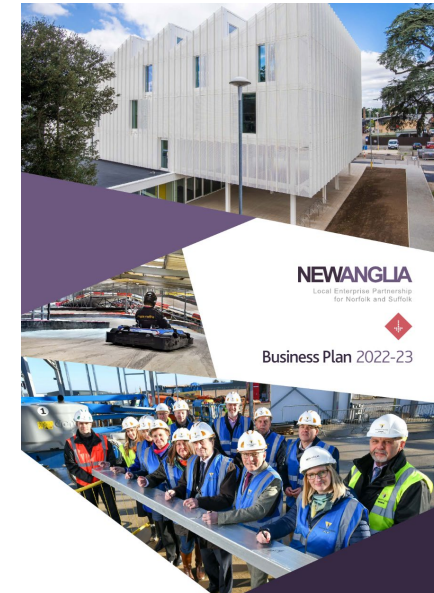

PROPORTIONALITY
No two NSIPs are equal

PLACE

Defining the opportunity

ENGAGEMENT

Working with the applicant

Reputation drivers

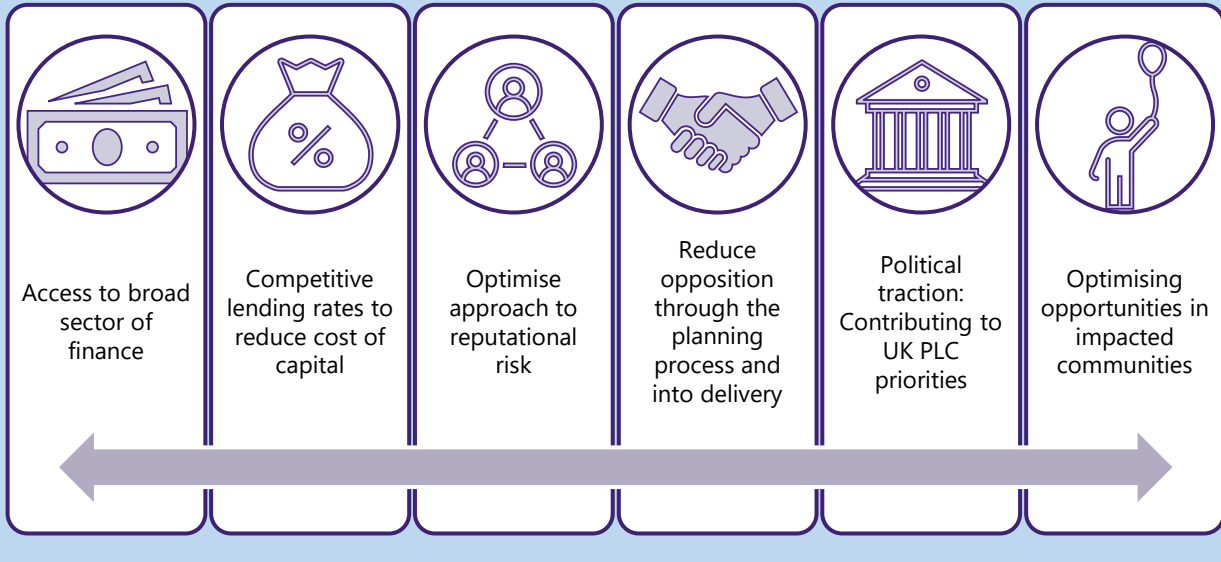

Setting the standard for infrastructure in the UK

Remuneration drivers

Quality, Cost and Time

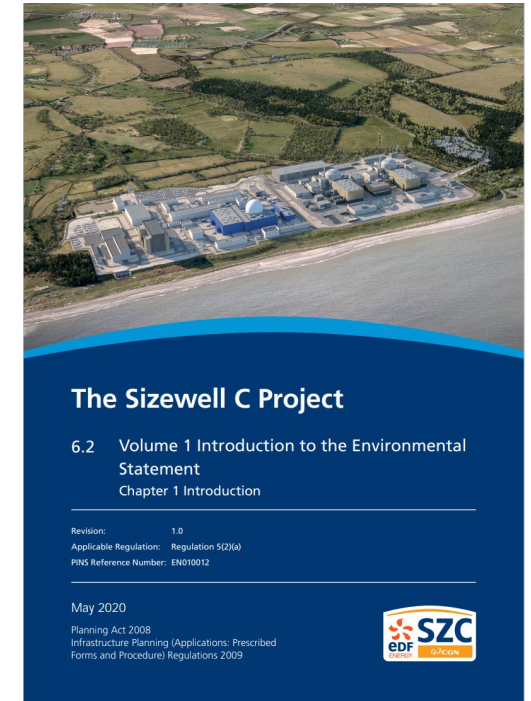

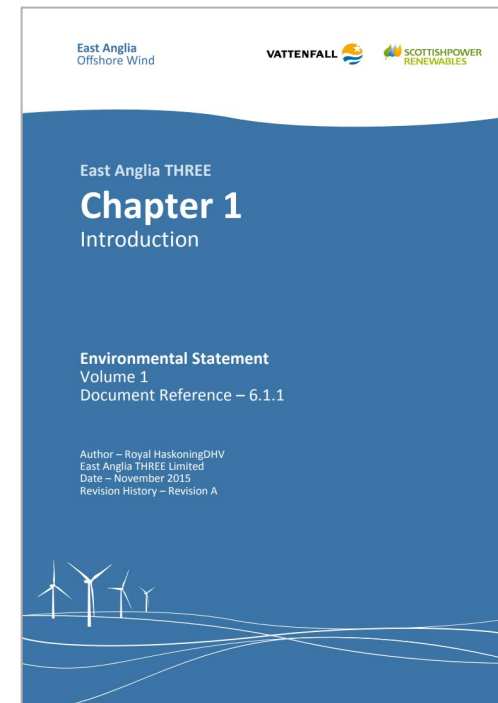

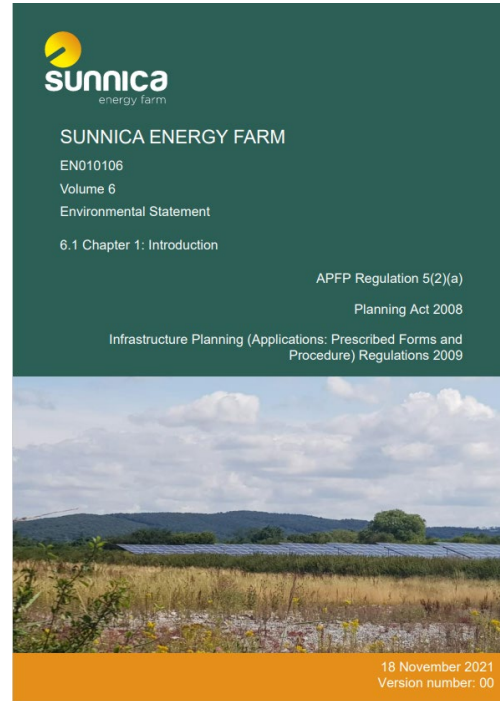

Alignment drivers

Ensuring the project is affordable, financeable and deliverable

PROPORTIONALITY

No two NSIPs are equal

DELIVERY

From planning to doing

- ✓ Process is adversarial by design as planning only accounts for negative impact – ensure time and effort with applicant to discuss positive impact
- ✓ All work based around an imperfect worst case scenario tested ahead of implementation – ensure solutions are dynamic and flexible. Change management is vitally important
- ✓ Enrich and enhance current projects that are delivering on the strategic aims of your locality and place

delivering infrastructure together
