EXPERIENCE

I previously studied a joint honours degree in English Literature and Linguistics where I specialised in clinical and psycholinguistics.

I have 4 years' experience working with young people and supporting their social and emotional needs. This allowed me to develop good listening and relationship building skills.

This also furthered my knowledge of safeguarding and ensured that I was equipped to manage any situation that may arise when working with children and young people. I have also trained to be a Mental Health First Aider.

Prior to that, I worked in a specialist provision for young people with Autism.

WHAT'S IMPORTANT TO ME AS AN INCLUSION FACILITATOR.....

- Building positive relationships with young people so that they feel their voice is being heard.
- Focusing on strengths and recognising gifts to empower others.
- Providing support to other provisions that enables them to make young people feel safe and supported.

HOW BEST TO SUPPORT ME

- I ask lots of questions so that I can gain a better understanding of things so please be patient but also feel free to ask me questions.
- Providing me with constructive feedback allows me to improve and personally develop.
- I like being organised and prepared so please share all relevant information with me before meeting.
