

School Organisation Review

Public Consultation in the Beccles area

22nd September 2008 – 15th December 2008

Give your views at:
www.suffolk.gov.uk/sor/group2

This booklet contains important information about possible changes to schools in the Beccles area. Please read it carefully and tell us what you think of the options. Your views will help us develop a pattern of schools in which children and young people can prepare for their future.

Contents

- 1. Introduction**
- 2. Summary of possible changes in the Beccles area**
- 3. Why are we proposing change?**
- 4. Vision for Learning**
- 5. Policy framework**
- 6. Timetable for change**
- 7. Map of schools in the Beccles area**
- 8. Options for schools in the Beccles area**
- 9. How to have your say**

1. Introduction

Our vision for children and young people is to:

“Enable all children and young people in Suffolk to aspire to, and achieve, their full potential, giving them the basis for a successful life as active members of the community.”

Patricia O'Brien
*Portfolio Holder,
Children, Schools
and Young People*

Rosalind Turner
*Director for
Children and
Young People*

Schools are at the heart of delivering that vision. Outside of the family, nothing else offers greater opportunities or has greater responsibility for making sure children stay safe and healthy, enjoy and achieve, make a positive contribution to their communities, and are able to get the most out of life now, and into the future.

We want the very best for Suffolk's children, starting with early years through to their transition into adulthood. We are working with our partners in Suffolk's Children's Trust to ensure that all agencies and efforts are harnessed to that common aim. Achieving a great start in life for all our children will do a great deal to contribute to the wider aspirations for Suffolk, to have a prosperous and sustainable economy and to ensure community well-being.

There are many challenges for schools and the local authority to ensure we can deliver the very best education now and into the future, to respond to the changes ahead of us, and to make the best use of the huge investment which will come to Suffolk over the next few years under the Building Schools for the Future programme (BSF).

Expectations of schools are high, both locally and nationally, to deliver a modern and relevant curriculum and to achieve even higher standards. There needs to be a thread of learning and continuity from when children first start school to when they leave. There will be more choices available from the age of 14, and schools are being encouraged to work together with colleges and others to ensure all young people remain within education or training up to the age of 18. Information technology offers new ways of learning and of delivering individual programmes tailored to the needs of each child.

Schools are also increasingly expected to provide a range of extended school opportunities for their children, their parents and the wider community, and to ensure there is support for every child to achieve their very best. Our school leaders, governors and staff are responding magnificently to these challenges. It is the local authority's role to support them and to ensure we have a school system, and structure, which can meet future needs.

Please read this booklet carefully so that you will be able to respond to the consultation. There will also be a series of meetings at each individual school where you can ask any questions you may have.

Please ensure you have your say. Thank you for taking the time to get involved.

September 2008

2. Summary of possible changes in the Beccles area

Options for the future pattern of schools in the Beccles area must follow the principles agreed by Suffolk County Council in March 2007. These are set out in section 5. Among other factors, the options must also take into account the number of children expected to be living in the area and the capacity of school buildings and sites. Options for each school are discussed in more detail in section 8.

Number of pupils

In common with most parts of Suffolk and the rest of England the number of children starting school in this area has been falling for some years. The county council has a duty to reduce the number of surplus places in schools because money spent on maintaining empty classes can not be spent on books and other equipment directly related to learning.

Forecasts indicate that the number of children expected to start school in this area is unlikely to exceed 200 for the foreseeable future. The options set out in this booklet provide over 200 places to allow for a degree of flexibility in meeting parental preference and for families moving into the area. These forecasts include the likely effect of new housing as set out in the Local Development Framework prepared by Waveney District Council.

Early years

Suffolk County Council is committed to the provision of, effective, and local early years services. There are children's centre services operating in Beccles and a centre on the Beccles Middle School site is due to open in September 2008. Four primary schools have nursery classes and two have preschools on site. These proposals would maintain that provision. There are currently sufficient places to meet local demand.

Summary of options

In accordance with the council's school organisation review principles, the options below set out a pattern of primary schools for children aged up to 11 and a single secondary school for young people aged 11–19. All village primary schools are retained as part of these options.

Public Consultation

School	Present			Proposed		
	Age Range (Y=Year) (R=Reception)	Pupils on Roll (Jan 2008)	PAN (Maximum number of pupils in each year group)	Age Range (Y=Year) (R=Reception)	Total number of pupils if full	PAN (Maximum number of pupils in each year group)
Barnby and North Cove Community Primary School	YR-Y4	31	15	YR-Y6	70	10
Brampton CEVCP School	YR-Y4	49	10	YR-Y6	105	15
Crowfoot Community Primary School	YR-Y4*	174	50	YR-Y6*	315	60
Ravensmere Infant School	YR-Y2	44	24	YR-Y2	60	20
Reydon Primary School	YR-Y4*	130	30	YR-Y6*	210	30
Ringsfield CEVCP School	YR-Y4*	32	18	YR-Y6*	70	10
Southwold Primary School	YR-Y4	43	15	YR-Y6	70	10
St Benet's Catholic Primary School	YR-Y6	86	17	YR-Y6	119	17
The Albert Pye Community Primary School	YR-Y4*	184	50*	YR-Y6*	360	40*
Worlingham CEVCP School	YR-Y4	159	36	YR-Y6	315	45
Beccles Middle School	Y5-Y8	404	120	-	-	-
Worlingham Middle School	Y5-Y8	378	120	-	-	-
Sir John Leman High School	Y9-Y13	1344 (incl. 6th Form)	378	Y7-Y13	1450 (incl. 6th Form)	240

***The school also has a maintained nursery class**

3. Why are we proposing change?

As part of our overall 'Transforming Learning with Communities' programme we carried out a review of school organisation in 2006. This developed a policy framework and principles that meet the vision, aims and challenges for the future.

Based on these principles, which are set out in section 5, the county council has adopted a preferred model of primary and secondary schools across Suffolk, rather than the current mixed provision that includes middle schools. We are now testing these principles through area based reviews. The first areas to be reviewed were Haverhill and Lowestoft. Work in these areas is progressing well.

Pupil Achievement

Children and young people in Suffolk generally perform well compared to national averages. However, the results for 11 year old pupils have been below the national average for a number of years. There are not enough young people staying on after the age of 16 and students in some of our sixth forms do not make the progress we would expect given their good GCSE results.

We need to improve performance for all age groups, but particularly at age 11 and after the age of 16. This will help ensure that our young people have the skills they need to compete in an increasingly global economy.

Building Schools for the Future

Building Schools for the Future (BSF) is a national programme of investment in secondary schools (including special schools). This significant and possibly unique programme could mean investment of at least £600 million for Suffolk over the next 10 to 15 years. The programme aims to:

- Create learning environments which inspire young people to strive for the very best they can achieve
- Provide teachers with 21st Century work places and;
- Provide access to facilities that can be used by all members of the local community

The first areas to benefit from BSF investment are Felixstowe, and south and west Ipswich. Investment in those areas will be in the region of £150 million. We expect to hear when funding will be available in the Beccles, Bungay and Leiston area early in 2009.

How are Suffolk schools currently organised?

Suffolk currently has two structures for its schools, two tier and three tier.

What are two tier schools?

In the two tier structure pupils complete Key Stages 1 and 2 at primary school before moving to secondary school for Key Stages 3 and 4.

What are three tier schools?

In the three tier structure pupils complete Key Stage 1 at primary school and begin Key Stage 2. At middle school, pupils complete Key Stage 2 and begin Key Stage 3. Pupils complete Key Stage 3 at upper/high school, where they also complete Key Stages 4 and 5.

14 to 19 education and training

The government is introducing radical changes to the curriculum for pupils aged 14 to 19. This includes entitlements for young people to access a wider range of courses, including a greater emphasis upon vocational learning. It is also proposed to raise the age for compulsory participation in some form of learning or training from age 16 to 18 by 2015. These changes will require close collaboration between schools, colleges, and other organisations if they are to be implemented successfully. The county council and the Learning and Skills Council in Suffolk are committed to meeting these challenges.

To do this we need to think carefully about how we organise our schools because this will affect what our students can do after the age of 16. We have the opportunity to develop our schools and post-16 provision at the same time as developing a new university for Suffolk. Doing this together will enable us to get all these things right.

More information about the Learning and Skills Council and University Campus Suffolk can be found by visiting their websites www.lsc.gov.uk and www.ucs.gov.uk

Local Government Review

The current consultation by the Boundary Committee concerning the future structure of local government has not altered Suffolk County Council's focus on providing an education system which helps to raise levels of achievement and encourages children and young people to reach their full potential. Views received during this consultation will inform planning for schools under any future local authority established by the Boundary Committee. All of the existing local authorities are very aware of the county council's plans for schools. For example, Suffolk Coastal District Council and Ipswich Borough Council are fully involved with our Building Schools for the Future plans.

You can find out more about the local government review by visiting the Boundary Committee's website www.boundarycommittee.org.uk

4. Vision for learning

Our aim, as set out in the Vision for Learning which was adopted by Suffolk County Council in March 2008 is for 'Suffolk's education to be amongst the best in the country, to be innovative and high achieving.'

Our Vision will inform developments across the 0–19 age range in all learning settings. We aim to make learning in Suffolk successful, enjoyable, accessible to all, inclusive and ethically-based, to ensure learners are confident and responsible citizens. The vision has been developed after listening to the views of children and young people, and consultation with parents and carers, teachers, support staff, head teachers and governors. Local authority officers, councillors, representatives of the dioceses, the Learning and Skills Council (LSC) and Further Education (FE) colleges have also been involved.

The full version of the vision is available at www.suffolk.gov.uk/sor

Transforming learning

The major programmes that are helping us to deliver our vision for learning include:

- Building Schools for the Future
- The School Organisation Review
- The Development of special educational provision
- The Primary Capital Programme (government money for rebuilding and refurbishing primary schools)
- The developing strategy for 14-19 year olds
- The children's centre and extended schools programmes

Transformation is also taking place through curriculum development, improving teaching and learning and the use of new technologies.

Every Child Matters

The vision for learning is directly linked with the overall priorities for Suffolk's children and young people set out in the Suffolk Children and Young People's Plan. They are grouped into five main areas based on the government's national initiative 'Every Child Matters'. 'Every Child Matters' aims to bring together all the services needed to support children and their families. This includes education, social care, health, police and young people's services.

We are looking at ways to use our school buildings better, to enable clubs and other activities to flourish for children and the wider community outside school hours. We are also building 48 children's centres around the county, where a range of services for the under 5's and their families will be based. To succeed, we need to plan where these services should be and we can only do this if we are clear about the way schools are organised.

Review of Special Education Needs Provision

Our aim for the long-term is that children and young people with special educational needs should:

- Either be able to attend their local school;
- Or access specialist provision in their own community, co-located on a mainstream school site;
- Or, if they have complex needs that require intervention from more than one agency, they should be able to access a complex needs school where learning can take place and where young people can be supported by a range of multi-agency services.

This review is also underpinned by a set of principles, which can be found at www.suffolk.gov.uk/sen. The county council has agreed that in the future special schools should serve children and young people with complex needs and that there should be more local provision where it is needed. We also propose to increase provision for those students who have autism, dyslexia or social, emotional and behavioural difficulties.

5. Policy Framework

During 2006, the county council carried out a review of school organisation in Suffolk. This review was focused on three key themes:

- How well pupils perform in school
- How well we use our resources
- How we can build a successful school system for the 21st Century.

At the end of this process, in March 2007, the county council agreed a series of principles and criteria for the future organisation of schools in Suffolk. The options within this booklet have been developed to meet these criteria. The principles are outlined below:

The county council has adopted a preferred option to move to a 2 tier system of primary schools covering the 4-11 age range and secondary schools covering the 11-6 or 11-18 age range. These schools will:

- Provide engaging and enjoyable learning experiences that deliver the highest possible standards for children and young people
- Ensure a single line of accountability for each Key Stage and minimise the number of points of transfer from one school to another within the statutory age range.
- Ensure all schools have the capacity, by working together with our key partners, to deliver a broad range of learning opportunities
- Develop Suffolk as a centre of professional excellence for all staff
- Ensure that schools provide suitable support for all children and young people, including those with additional educational needs
- Ensure that schools are able to develop a range of services, working together with our key partners that meet local needs, including where applicable, integrated early years and child care
- Ensure that all our schools promote social cohesion and harmony

The county council also intends that:

- Priority be given to safeguarding the position of village schools, recognising their place at the heart of their communities, with the possibility of federation or other measures where their viability is at risk
- The preferred size for secondary schools should be in the range of 6 to 10 forms of entry, with an optimum size of 1200, excluding sixth form. The size of the sixth forms should be no less than 200 in number in 11 to 18 schools.
- Consideration should also be given, where there are compelling local reasons, to the option of all-through schools. This would be subject to the principles established for school structures, and a clear consensus of support within the local community arrived at by thorough local consultation. It may also require majority support from the governing bodies involved, and consideration of the effect on other schools.

The full list of principles can be found on our website at www.suffolk.gov.uk/sor

At their meeting in March 2007, the county council agreed to proceed to a second stage of the review. At this second stage, specific proposals for schools in the county would be considered in detail in the light of the principles referred to above. Because of the number of schools potentially affected, the county council decided to carry out the review in three phases:

Group 1: Lowestoft and Haverhill

Group 2: Beccles, Bungay, Leiston and Mildenhall and Newmarket (Forest Heath area)

Group 3: Bury St Edmunds, Thurston, Sudbury, Stowmarket

6. Timetable for change

It is important that any changes to schools are the right ones and they are carried out carefully. Therefore, changing the pattern of schools is a long process.

Step 1 Developing options

Schools in the Beccles, Bungay, Leiston and Forest Heath areas joined the review in 2008. Headteachers, school governors, parents, councillors and other stakeholders have been discussing options during the summer term. They have considered many factors and based on their discussions the options in this paper have been developed.

Step 2 Public consultation

From September to December 2008, parents, teachers, young people and many other groups will have the opportunity to say what they think about the options. As well as this booklet, there will be meetings at schools in the area to explain what is being put forward.

Anyone will be able to send in their views using a questionnaire, by letter, on-line or by making comment at one of the meetings. This is not about voting, one well argued letter can have more effect than a petition.

All responses will be analysed and taken account of.

Step 3 Statutory proposals

In February 2009, Suffolk County Council's Cabinet will review the options in the light of consultation responses. They will then begin the legal process of making changes to schools by publishing statutory notices. You will find these in the local paper and at schools and libraries. They will also be available on our website www.suffolk.gov.uk/sor/group2

There will be six weeks in which anyone can comment on the final proposals for each school.

Step 4 Decision making

In most cases the final decision on the proposals will be made by the county council. However, in some cases the Schools Adjudicator will be asked to make the final decision. The Secretary of State for Children, Schools and Families appoints the Schools Adjudicator. Final decisions for the Beccles area are expected by the end of 2009.

Step 5 Implementation

Even before decisions are made, we will be working with schools to prepare the staff and buildings for their future role.

For children the first changes would happen in September 2011 when children currently in Y2 would not transfer to middle schools, but would stay as Y5 in their primary schools. The following year, September 2012, these pupils would become Y6 in their primary schools.

Middle schools would close at the end of the summer term 2012 and in September 2012 their pupils would transfer to secondary school. The diagram below shows this.

September	YR	Y1	Y2	Y3	Y4	Y5	Y6	Y7	Y8	Y9	Y10	Y11
2008	P	P	P	P	P	M	M	M	M	H	H	H
2009	P	P	P	P	P	M	M	M	M	H	H	H
2010	P	P	P	P	P	M	M	M	M	H	H	H
2011	P	P	P	P	P	P	M	M	M	H	H	H
2012	P	P	P	P	P	P	P	H	H	H	H	H
2013	P	P	P	P	P	P	P	H	H	H	H	H

P - primary school M - middle school H - high school

Pupils in Y5 and above in September 2008 will spend four years at middle school before transferring to high school in September 2012 aged 13.

Pupils in Y4 in September 2008 will transfer to middle school in September 2009 and after three years transfer to high school in September 2012 aged 12.

Pupils in Y3 in September 2008 will transfer to middle school in September 2010 and after two years transfer to high school in September 2012 aged 11.

Pupils in Y2 and below in September 2008 will spend seven years in their first school before transferring to high school in September 2013 aged 11.

We intend to keep to this timeframe. It will be kept under continual review in the light of consultation responses and implementation planning. Issues that may affect the timeframe could include:

- If a new school is required, Government rules are likely to require us to run a competition to determine who will set up the school. This process may take up to nine months. Where this is also followed by the need to build new accommodation, the combined impact could be a delay to the timeframes set out above.
- Some options may require phased implementation to minimise disruption to pupils, to enable building projects to be completed or to coordinate with implementation in neighbouring areas. This may cause some changes to the published timeframes. Schools and parents will be informed if any such issues arise.

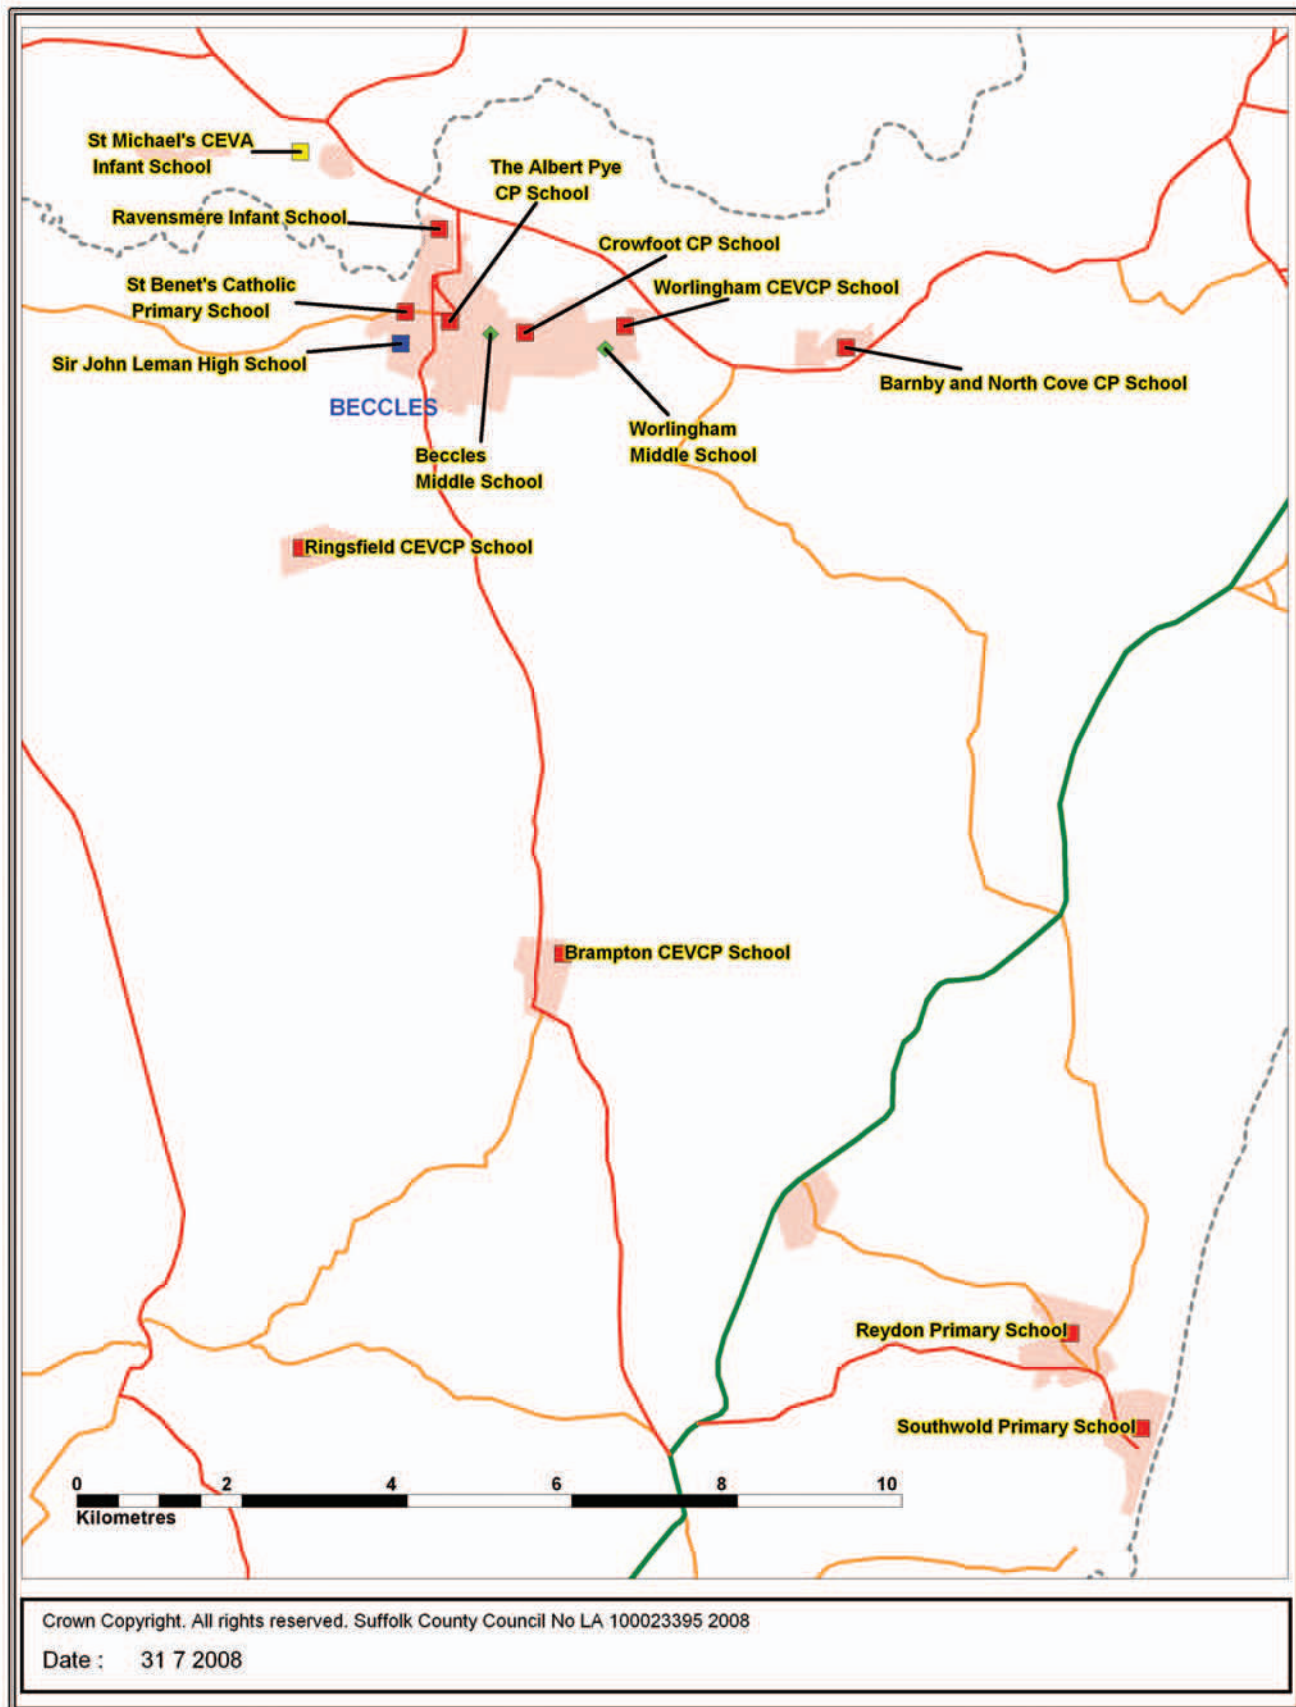

Managing change

We are committed to managing change carefully and well, to minimise disruption and to ensure continuity of education and support for all children and young people. We have included a two-year period during which the changes can be planned with schools. Schools in this area are already planning together for change.

High quality staff

To manage change successfully we need support and commitment from high quality staff. Change can be unsettling for all those involved so we are working with trade unions, staff representatives, head teachers and governors on employment stability and professional development programmes. The county council has developed a staffing protocol which encourages primary and secondary schools to consider appointing staff from middle schools first before advertising more widely. The protocol also sets out details of salary protection. The protocol can be viewed on the School Organisation Review web pages www.suffolk.gov.uk/sor

7. Map of area

8. Options for schools in the Beccles area

As well as the principles agreed by the county council, the local stakeholder forum, headteachers and chairs of governors, also identified things that were important to them. These have informed the review at a local level.

The Beccles (Sir John Leman) pyramid of schools endorses the Suffolk County Council vision for children and young people.

We aim to provide learners with a world class education which will:

“Enable all children and young people in Suffolk to aspire to achieve their full potential, giving them the basis for a successful life as active members of the community.”

- Excellence in opportunity, performance and achievement
- Personalisation – to ensure that personalisation is at the heart of our community
- Choice and diversity – through curriculum design, approaches to learning and the use of ICT to enhance learning
- Inclusion – to ensure that provision is in place to support students with special and additional educational needs
- Participation and progression – to ensure that all young people are engaged in learning 4–19 (0–19)
- A well thought out plan to ensure successful transition at all stages and ages
- The school at the heart of the community
- Values and a culture which ensures that all young people in the partnership develop a sense of worth and aspiration

The partnership is committed to high quality learning and teaching which is enjoyable, inclusive, accessible, ethical and successful.

The partnership would wish to provide:

- A world class, flexible learning environment which will meet the needs of learners of the 21st century (adaptive, capable of change)
- Excellent links between pyramid partners and locality partnership schools, colleges, other places of education and work place providers
- A common approach, philosophy and ethos
- Excellent links with all agencies - including health, social care, behaviour support, extended schools providers
- A wide and varied range of enrichment opportunities
- Excellent links and relationships with parents in particular but all key stakeholders in general

The partnership is committed to putting students' needs at the heart of our core business ensuring that all students are given the best possible opportunities to be successful in their education and as members of their community.

We aim for all learners to have the skills to learn, unlearn and relearn which will be the basis of success in a rapidly changing world. Learners will have the skills and competences for success in the 21st century.

School Organisation Review

Barnby and North Cove Community Primary School

The option for Barnby and North Cove Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at their local school for two more years.

Currently the school can admit up to 15 children into each year group, although it rarely does so. Reducing this to 10 is expected to be sufficient to meet forecast, local demand and allow a degree of parental preference to be met for children living outside of the area. An admission number of 10 helps effective classroom organisation and relates to the way school places are planned.

Currently the school has space for the additional year groups, although it will be necessary to assess the suitability of the school accommodation as the need arises.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Barnby and North Cove Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Barnby and North Cove Primary School catchment area would also be in the catchment area for Sir John Leman High School.

Another option would have been to merge Barnby and North Cove Primary School with Worlingham Primary School to create one larger primary school. While this may have enabled children to work in a larger peer group and brought together more staff to share their expertise within one school, there are many examples in Suffolk and elsewhere of small rural schools achieving outstanding results.

Brampton CEVCP School

Brampton Primary School and Ringsfield Primary are part of a soft federation. This means that both schools have agreed to share one headteacher although they remain separate schools with their own governing bodies.

The option for Brampton Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at their local school for two more years.

Currently the school can admit up to 10 children into each year group. Increasing this to 15 will be sufficient to meet forecast, local demand and allow a degree of parental preference to be met. An admission number of 15 helps effective classroom organisation and relates to the way school places are planned .

As a result of the changes the school may require additional accommodation. Feasibility studies suggest that the site is large enough for this to be possible. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Brampton Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Brampton Primary School catchment area would also be in the catchment area for Sir John Leman High School

Another option would have been to merge Brampton Primary and Ringsfield Primary with Ilketshall St Lawrence Primary School to create a larger primary school. While this may have brought benefits to pupils of working in a larger peer group and bringing together more staff to share their expertise within one school, there are many examples in Suffolk and elsewhere of small rural schools achieving outstanding results. The close working relationship between Brampton and Ringsfield Primary is a good example of how small schools can support each other in delivering the curriculum.

Crowfoot Community Primary School

The option for Crowfoot Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at the local school for two more years.

Currently the school can admit up to 50 children into each year group. Increasing this to 60 is expected to be sufficient to meet forecast local demand and allow a degree of parental preference to be met for children living outside of the area. An admission number of 60 helps effective classroom organisation and relates to the way school places are planned.

As a result of the changes the school may require additional accommodation. Feasibility studies suggest that the site is large enough for this to be possible. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Crowfoot Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Crowfoot Primary School catchment area would also be in the catchment area for Sir John Leman High School.

Ravensmere Infant School and The Albert Pye Community Primary School

Currently Ravensmere and The Albert Pye schools are unique in that the age range of Ravensmere School is YR - Y2 and the children have to transfer at the age of seven to another school for Y3 and Y4. Almost all children transfer to The Albert Pye School, which has pupils in YR to Y4 and is working in what is known as a "soft federation" with Ravensmere Infant School. In a soft federation the schools remain separate, but agree to collaborate and in this case they share a Headteacher.

We have considered an amalgamation of the two schools. However, the limitations of the two school sites mean the single school would have to continue to use both sites. After discussion with the two governing bodies it is believed that the school organisation principles of accountability for each Key Stage and continuity of experience for children from 4-11 can be met through a "hard federation" between the two schools. In a hard federation the schools will continue to be separate with their own budgets, inspections etc, and pupils would still need to formally leave one school and join the other at the end of Key Stage 1. However, in a hard federation the schools would be managed by a single governing body which would be responsible for ensuring that the children share the same experience from the age of 4-11. A hard federation gives the governing bodies more flexibility in deploying staff and resources across the two schools, but requires a legal process to establish it. This legal process is led by the governing bodies who have asked the county council to seek comments on their proposal to move to a hard federation as part of this consultation.

The future size and age range of the school remains for the county council to decide and we are proposing that Ravensmere Infant School retains its present age range, offering 20 places in each year group, while Albert Pye extends its age range to include Y5 and Y6, offering 40 places in each of YR-Y2 and 60 places in Y3-Y6. This change in size makes it easier for the schools to organise classes within the requirements of infant class size legislation and reflects local demand for places.

Ravensmere Infant School would have sufficient accommodation. However The Albert Pye School would require changes to its accommodation. Feasibility studies suggest that the site would be able to accommodate the changes. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below at The Albert Pye School would continue there until the end of Y6, when they would transfer to secondary school. The children attending Ravensmere Infant School would need to transfer to The Albert Pye School at the end of Y2, but would remain there until the end of Y6.

Pupils living in the catchment area of both schools would also be in the catchment area for Sir John Leman High School.

School Organisation Review

Reydon Primary School

The option for Reydon Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at their local school for two more years.

Currently the school admits up to 30 children into each year group. Maintaining this at 30 is expected to be sufficient to meet forecast local demand and allow a degree of parental preference to be met for children living outside of the area.

As a result of the changes the school may require additional accommodation. Feasibility studies suggest that the site is large enough for this to be possible. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Reydon Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Reydon Primary School catchment area would also be in the catchment area for Sir John Leman High School.

Ringsfield CEVCP School

Ringsfield Primary School and Brampton Primary are part of a soft federation. This means that both schools have agreed to share one headteacher although they remain separate schools with their own governing bodies.

The option for Ringsfield Primary School will be to extend its age range to include Y5 and Y6. This will allow pupils to complete all of Key Stage 2 at one school.

Currently the school can admit up to 18 children into each year group, although it rarely does so. Reducing this to 10 is expected to be sufficient to meet forecast local demand and allow a degree of parental preference to be met for children living outside of the area. An admission number of 10 helps effective classroom organisation and relates to the way school places are planned.

As a result of the changes the school may require some minor adaptation to its buildings. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Ringsfield Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Ringsfield Primary School catchment area would also be in the catchment area for Sir John Leman High School.

Another option would have been to merge Ringsfield Primary and Brampton Primary (currently in a joint soft federation) with Ilketshall St Lawrence Primary School to create a larger primary school. While this may have brought benefits to pupils of working in a larger peer group and bringing together more staff to share their expertise within one school, there are many examples in Suffolk and elsewhere of small rural schools achieving outstanding results. The close working relationship between Brampton and Ringsfield Primary is a good example of how small schools can support each other in delivering the curriculum.

Southwold Primary School

The option for Southwold Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at their local school for two more years.

Currently the school can admit up to 15 children into each year group, although it rarely does so. Reducing this to ten is expected to be sufficient to meet forecast local demand and allow a degree of parental preference to be met for children living outside of the area. An admission number of 10 helps effective classroom organisation and relates to the way school places are planned.

As a result of the changes the school may require some minor adaptation to its buildings. Any building work needed will be planned in partnership with the school.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Southwold Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Southwold Primary School catchment area would also be in the catchment area for Sir John Leman High School.

St Benet's Catholic Primary School

St Benet's Catholic Primary School currently takes the full primary age range YR to Y6. There are no proposed changes for this school.

Worlingham CEVCP School

The option for Worlingham Primary School will be to extend its age range to include Y5 and Y6. This will give the school accountability for all of Key Stage 2 and retain the pupils at their local school for two more years.

Currently the school can admit up to 36 children into each year group. Increasing this to 45 is expected to be sufficient to meet forecast local demand and allow a degree of parental preference to be met for children living outside of the area. An admission number of 45 helps effective classroom organisation and relates to the way school places are planned.

As the Worlingham Primary School site is unable to accommodate a 315 place school the school would move onto the Worlingham Middle school site. Some adaptations will be required to make the accommodation suitable for the younger pupils.

The future use of the Worlingham Primary site school site will be determined through the usual town planning process. However the council would like to achieve a capital receipt that will help fund and develop other school sites.

All pupils who have started Y3 and Y4 in September 2008 would transfer to middle school at the end of Y4 - exactly as they would do if there was no change.

Pupils in Y2 and below would continue at Worlingham Primary School until the end of Y6, when they would transfer to a secondary school. Pupils living in the Worlingham Primary School catchment area would also be in the catchment area for the Sir John Leman High School.

Another option would have been to merge Worlingham Primary School with Barnby and North Cove Primary School to create one larger primary school. While this may have enabled pupils to work in a larger peer group and brought together more staff to share their expertise within one school, there are many examples in Suffolk and elsewhere of small rural schools achieving outstanding results.

School Organisation Review

Beccles Middle School

The county council has adopted a preferred option to move to a two tier system of primary schools covering the 4–11 age range and secondary schools covering the 11–16/19 age range. This will require the closure of middle schools.

The pattern of primary schools set out above would lead to there being no admissions to Beccles Middle School in September 2011 when Y5 pupils would remain in their primary schools.

In September 2011, Beccles Middle School would teach Y6, Y7 and Y8.

In September 2012, all year groups still remaining at the middle school would transfer to high school and Beccles Middle School would close.

The site could be used in the future by Sir John Leman High School who will have the option of the use of Beccles Middle School as an annexe until the high school site is redeveloped through the Building Schools for the Future programme.

Worlingham Middle School

The county council has adopted a preferred option to move to a two tier system of primary schools covering the 4–11 age range and secondary schools covering the 11–16/19 age range. This will require the closure of middle schools.

The pattern of primary schools set out above would lead to there being no admissions to Worlingham Middle School in September 2011 when Y5 pupils would remain in their primary schools.

In September 2011 Worlingham Middle School would teach Y6, Y7 and Y8.

In September 2012, all year groups still remaining at the middle school would transfer the high school and Worlingham Middle School would close.

The site would become the future location for Worlingham Primary School.

Sir John Leman High School

The option for Sir John Leman High School will be to extend its age range to include Y7 and Y8. This allows students to complete Key Stage 3 studies in one school.

Currently the school admits up to 378 students into each year group. This figure is outside of the council's preferred range for secondary schools and if this figure was continued, could lead to a school of over 2000 pupils.

A number of pupils travel from Norfolk to attend Sir John Leman High school. In addition a significant number of pupils currently travel to Sir John Leman each day from Lowestoft. From September 2011 a new secondary school will be provided in south Lowestoft that these pupils will be able to attend.

It is therefore proposed to reduce the number of places offered in each year group to 240. This is within the preferred range and is sufficient for all children attending local primary schools to transfer with space for those who have traditionally transferred from Norfolk and some siblings of children from Lowestoft.

Sir John Leman High School will take its new year groups, (Y7 and Y8), in September 2012, when three year groups, (Y7, Y8 and Y9), will transfer to high school from the middle schools.

There would be a need for some additional accommodation for the two additional year groups. It is possible that this will be provided by the use of Beccles Middle school site. Providing either permanent or temporary accommodation on the Sir John Leman High School site at this time may compromise future development options for the school when the Building Schools for the Future programme provides the opportunity for major investment.

16–19 provision

One of the principles of the School Organisation Review is that in order to be able to provide the necessary breadth of opportunity, school sixth forms should contain at least 200 students. Currently the number of sixth formers at Sir John Lemman exceeds this figure and it is expected to continue to do so. Additionally, each of the partners in the North Suffolk Partnership; Bungay High School, Leiston High School and Sir John Lemman High School, have been working together with the support of their governing bodies and have agreed a partnership including a joint vision supported by values and objectives. Central to this collaborative approach is the Halesworth Skills Centre. This offers specialist facilities that are used by students from all three high schools. The three high schools are committed to developing the opportunities available to young people in the area through even closer collaboration based on a five year 14-19 Locality Partnership Plan.

Considering this good practice and the location of alternative provision it is proposed that Sir John Lemman High School retains its sixth form.

Norfolk schools

One Norfolk school, St Michaels Gillingham CEVA First School (YR to Y4) is part of the Sir John Lemman High School pyramid of schools. All pupils usually transfer to Worlingham Middle School at the end of Y4 before attending Sir John Lemman High School. St Michael's Gillingham CEVA First School will be going through a school reorganisation and are planning their changes to coincide with our timetable.

9. How to have your say

Consultation in other areas of Suffolk has influenced the pattern of schools being proposed for the future. Your views will be carefully considered as we move to the next stage in the process.

To help as many people as possible to be involved we are using a variety of methods:

- A paper questionnaire
- An online questionnaire (log onto www.suffolk.gov.uk/sor/group2)
- Public meetings.

You can also write to the School Organisation Review team at: Suffolk County Council FREEPOST NAT18364 Ipswich IP1 2BR

Details of public meetings are on page 23 of this booklet. Posters will also be displayed in your local school and adverts will appear in local papers.

Who are we consulting?

Copies of this booklet have been sent to all parents of pupils within local schools, to staff, and to every school governing body. We are also seeking views from unions, professional associations, Catholic and Church of England Diocese, parish, town and district councils, and neighbouring local authorities. We have sent copies to local playgroups and other early years providers.

How can I find out more?

If you want more information about the review you can log onto our website www.suffolk.gov.uk/sor/group2. Further copies of this booklet and other material can be found at your local library, school, or by calling 08456 031 842.

When does consultation finish?

The consultation period lasts twelve weeks, running from 22 September 2008 to 15 December 2008.

What happens after the consultation finishes?

In February 2009 the county council's cabinet will carefully consider the responses to the consultation before making a decision about the options it wants to take forward.

Once a decision is made we will publish statutory notices detailing the changes we want to make to schools. You will be able to make representations about these notices during the six-week period after they are published. The notices will explain how you can comment on them.

Cabinet will then consider the options and the responses from the six-week statutory consultation. If the cabinet cannot agree the proposals, they will be referred to the Schools Adjudicator.

We expect a final decision before the end of the summer term 2009. Detailed planning for implementation will then be finalised for the agreed proposals.

Public Meetings

**Education is changing –
make sure you have your say.**

Beccles area

All meetings will run from 18:30 – 20:00 unless otherwise stated

Monday 13 October	Crowfoot Community Primary School
Tuesday 14 October	Worlingham Middle School (19:30 – 21:00)
Tuesday 21 October	Reydon Primary School
Thursday 23 October	Brampton CEVC Primary School and Ringsfield CEVC Primary School A joint meeting at Ringsfield CEVC Primary School
Monday 3 November	Sir John Leman High School
Tuesday 4 November	Worlingham CEVC Primary School
Thursday 6 November	Beccles Middle School (19:30 – 21:00)
Monday 10 November	Albert Pye Primary School and Ravensmere Infant School
Wednesday 12 November	Barnby and North Cove Community Primary School (16:30 – 18:30)
Tuesday 18 November	Southwold Primary School (16:30 – 18:30)

**For more information about these meetings
www.suffolk.gov.uk/sor/group2 or call 01502 405333**
