

INVESTMENT FRAUD

What is it?

Investment fraud involves deceiving individuals into investing money in fake or misrepresented opportunities. The money invested is stolen by the fraudster resulting in financial losses for the victims.

Top tips to stay safe

Don't be rushed into making an investment. Legitimate organisations will never pressure you into investing on the spot.

Seek advice from trusted friends or relatives - or seek professional independent advice.

Verify before investing

Always check whether the firm is authorised by the Financial Conduct Authority (FCA) before you invest.

Use the FCA Firm Checker and search for the company yourself rather than following a link sent to you.

Never send money or share personal information if you cannot confirm the firm's details.

STOP! THINK FRAUD
