

# One Page Plans

## What is a One Page Plan?

It is a person centred planning tool used to help a young person and those supporting them have an agreed understanding of the best way to support them.

## What do people say about it?

“This captures exactly what staff need to know”

“It’s so easy to access, having it on one page means we can put it all into place”

“It means we are all on the ‘same page’...”

## What is the Impact?

One Page Plans are a useful way to bring together all those supporting a young person to create a plan where they are at the centre.

It supports effective communication between families, education setting and professionals and provides consistency in approach. They also encourage next steps to move forward from difficult situations.
