

Team Pupil - A Trauma-Informed Approach

The Inclusion Facilitation Service offer a supportive approach to provide schools with skills and a framework to set up and maintain Team Pupil (Louise Bomber 2021).

For children and young people who may have experienced trauma, loss, and/or breakdown of relationships.

It provides schools with a shared understanding of trauma-informed approaches and practical application of strategies, bespoke to their setting and tailored to the child or young person's needs.

Team Pupil focuses on the importance of 'connection before correction', placing emphasis on the creation of relationships.

Our offer is:

- Supporting the creation of a team of adults around the child or young person.
- Three one-hour, in-person sessions, led by Inclusion Facilitators, who provide a safe space for team reflection.
- Signposting to helpful resources.
- A bespoke Therapeutic Timetable and One Page Plan.
