The Cassius Reminder Clock

Cassius Orientate Collection

20 PRE-SET
REMINDERS
& ALARMS

1 About the Reminder Clock

- The Cassius Reminder Clock has been developed to provide reminders for daily routines which can include:
 - Reminders to take your medication
 - Reminders to drink more
 - Reminder to exercise
- It has a large display showing date, time and time of day.
- You can choose how you would like this displayed.
- It lights up during the day and dims at night.
- It can be wall-mounted or can be on a stand.
- It has 20 pre-set reminders and alarms.
- You can add your own personal alarms and reminders using the USB or SD card.
- It has easy-to-use push button operation.
- This product is analogue and therefore does not require internet connection for it to work.

2 How does it work?

Your carers can set your reminders to suit your needs at set times. The clock will show the reminder on the screen so you can see it and also tell you the reminder so you can hear it.

The reminder will run for 45-60 seconds in case you didn't hear it the first time.

3 Things to know

Charging

The clock is plugged into the wall in a main socket and it will not take batteries.
