SUFFOLK TRAVEL
PLAN GUIDANCE
Chapter 1 – Introduction

Purpose of this document

The purpose of this guidance is to promote consistency and best practice in travel planning across Suffolk and thereby fulfil national and local policy requirements. It will provide greater clarity to developers and other stakeholders involved in the planning process. It has been produced in response to feedback from LPAs and developers.

How has this been produced?

Local government in Suffolk follows a two-tier structure, with planning responsibilities largely lying with the Local Planning Authorities (LPAs) and highways and transport responsibilities with the County Council. The content of this guidance has therefore been developed in consultation with the seven LPAs in Suffolk.
Chapter 2 - Background

What is a Travel Plan?
The National Planning Policy Framework (NPPF 2018) defines a Travel Plan as "A long-term management strategy for an organisation or site that seeks to deliver sustainable transport objectives and is regularly reviewed." A Travel Plan should contain "positive action" and that it must be articulated in a document that is regularly reviewed.

A good Travel Plan is a single integrated document that contains all the key information needed to implement a robust and effective long-term travel management strategy.

Meeting housing needs and delivering growth, whilst creating accessible, healthy and connected communities is challenging. Planning authorities therefore frequently require Travel Plans in relation to a wide range of development proposals including commercial, office, institutional, leisure, education and residential developments, to help reduce congestion and emissions and improve air quality, connectivity and public health.

Travel Plans identify opportunities for the effective promotion and delivery of sustainable transport initiatives e.g. walking, cycling and public transport, with a view to reducing traffic and reliance on the private car.

A Travel Plan considers both proposed, and existing developments and it is a dynamic process, rather than a short-term fix or a finite project. It requires regular monitoring, reviewing and adjustment to make sure that it is achieving its goals.

Current planning guidance on Travel Plans states that: "Travel Plans should identify the specific required outcomes, targets and measures (see appendix 3), and set out clear future monitoring and management arrangements all of which should be proportionate. They should also consider what additional measures may be required to offset unacceptable impacts if the targets should not be met."

For any further information on Travel Plans, please visit: www.suffolk.gov.uk/travelplans, or email: travelplans@suffolk.gov.uk

When is a Travel Plan necessary?
A Travel Plan is required for any development that is going to create "significant" amounts of movement on the highway network according to paragraph 111 of the NPPF.

Thresholds outlining when a Travel Plan is required can be found in Chapter 3. These are based on local decisions made by SCC in conjunction with the LPAs and are based on the previously published Travel Plan guidance by the Department for Transport (DfT).

Transport Assessments, Transport Statements and any other relevant evidence will be used to make this judgement. Transport Assessments and Transport Statements primarily focus on evaluating the potential transport impacts of a development proposal and suggest mitigation for any ‘severe’ effects, which may be taken forward in Travel Plans.

Paragraph 109 of the NPPF states that "Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.” It goes on to list the following in paragraph 110:

"Within this context, applications for development should:

a) give priority first to pedestrian and cycle movements, both within the scheme and with neighbouring areas; and second – so far as possible – to facilitating access to high quality public transport, with layouts that maximise the catchment area for bus or other public transport services, and appropriate facilities that encourage public transport use;

b) address the needs of people with disabilities and reduced mobility in relation to all modes of transport;

c) create places that are safe, secure and attractive – which minimise the scope for conflicts between pedestrians, cyclists and vehicles, avoid unnecessary street clutter, and respond to local character and design standards;

d) allow for the efficient delivery of goods, and access by service and emergency vehicles; and

e) be designed to enable charging of plug-in and other ultra-low emission vehicles in safe, accessible and convenient locations."

A Travel Plan also accords with NPPF paragraph 103, by contributing to the reduction of air pollution and improving public health, and paragraph 148 by reducing the contribution to climate change.

Who is involved in travel planning?
Suffolk County Council, in its capacity as the highway authority, is a statutory consultee to LPAs for highway matters and formulates its response through internal consultation with the following teams:

• Travel Plan Officers, who are responsible for overseeing the implementation of Travel Plans across the County in accordance with the NPPF;

• The Passenger Transport team which is responsible for bus infrastructure;

• The Road Safety team; and

• The Public Rights of Way team which is responsible for overseeing the implementation of Travel Plans within the county.

A number of third parties also feed into travel planning and these include but are not limited to:

• Public Transport Operators;

• Highways England;

• Network Rail;

• Those with responsibility for air quality within local authorities; and

• Agencies responsible for public health and safety

What are the benefits of a Travel Plan?
The benefits of travel planning are as follows:

• Environmental: Opportunities to reduce air pollution, noise and tackle climate change. Opportunities for creating more attractive, connected and liveable communities.

• Economic: Improved site access and travel choices for staff/customers/pupils/visitors, less traffic congestion and fewer delays, greater range of benefits to offer staff/staff/customers/pupils/visitors, reduced cost of demand upon car parking.

• Social: Potential for improved road safety and improving relations with neighbours (e.g. reduction in parking disputes), promoting active travel choices which can improve physical and mental health and productivity, tackling childhood obesity and reducing exposure to and the generation of air pollution, which allows those without a car to travel independently.

What policies support the use of Travel Plans?
There are a number of local and national policies which support the use of Travel Plans. These are in Appendix 1.
Chapter 3: Developing a Travel Plan – where should you start?

When should I think about a Travel Plan?

The following table shows what you need to consider in terms of travel planning at each stage of the planning process.

Table 3.1

<table>
<thead>
<tr>
<th>Stage</th>
<th>Requirement</th>
</tr>
</thead>
</table>
| Scoping | • Establish the requirement for a Travel Plan or, for a smaller development suitable Travel Plan measures  
• Identify the need for the Transport Assessment or Transport Statement  
• Applicant and SCC agree the type of Travel Plan required and how this will be integrated with the overall highway mitigation package identified through the Transport Assessment  
• Applicant agrees the requirements for the Travel Plan with Local Planning and Transport Authorities |
| Pre-application | • Applicant submits draft Travel Plan to SCC through the Highways Development Control Mailbox (Highways.DevelopmentControl@suffolk.gov.uk) to allow SCC to evaluate the Travel Plan and make comments (a fee may be required for this service)  
• SCC gives feedback to the applicant enabling review and assessment of the Travel Plan  
• Applicants undertake informal consultation on the proposed application  
• Applicant and LPA undertake negotiations  
• SCC and applicant agree draft terms of legal agreement and conditions |
| Submission of Application | • Submit final Travel Plan and Transport Assessment for consideration alongside the planning application to the LPA  
• SCC carries out further/final evaluation of the plan and ensures that the responsibility for the Travel Plan and its full implementation is clearly set out  
• LPA carries out statutory consultation  
• SCC and applicant agree any amendments to the Travel Plan, legal agreements [conditions and/or Planning Obligations] and finalise supporting documents |
| Post determination of planning application and pre-occupation | • Update and expand the Travel Plan in accordance with the planning conditions and/or Planning Obligation  
• Developer/Occupier commences implementation of measures at agreed trigger points |
| Occupation | • Occupier/Developer ensures full implementation of Travel Plan in accordance with agreed trigger points  
• SCC agrees that the Travel Plan requirements have been met, enabling occupation to take place  
• SCC to ensure occupier undertakes the collection of baseline data for monitoring in a standardised format at the agreed trigger point  
• SCC and developer/occupier agree any necessary handover of responsibilities from developer/occupier |
| Post-Occupation | • Occupier monitors Travel Plan outcomes as set out in a planning condition or Section 106 agreement and in line with SCC’s requirements.  
• Occupier collects data at appropriate times in agreed forms.  
• SCC ensures any on-going measures continue to be delivered  
• Occupier and SCC undertake review process to agreed timescales |
| Enforcement | • LPA in consultation with SCC considers use of enforcement if outcomes are not delivered and amendments cannot be agreed with the developer/occupier |
What type of Travel Plans are there?

The following table details the different types of Travel Plans which can be sought:

Table 3.2:

<table>
<thead>
<tr>
<th>Stage</th>
<th>Description</th>
<th>When should this be submitted?</th>
</tr>
</thead>
</table>
| Full    | Must include detailed objectives and targets, Travel Plan measures, full details of the person responsible for administering the Travel Plan ([Travel Plan Coordinator]), an action plan, budget and arrangements for monitoring and management. It is important that continued operation is passed on to respective occupiers. | • Full planning applications where the proposed use and accessibility needs are known.  
• Outline applications where the scale of uses is known.  
• Reserved matters application for subsidiary Travel Plans |
| Interim | An Interim Travel Plan should be submitted for all developments when there is insufficient background information on the proposed site and where it is not possible to produce a full Travel Plan. This would be the case for new residential development, or for commercial developments that have no end user identified (e.g. retail and business parks). The Interim Travel Plan must include commitments towards achieving objectives and targets drawn from interim baseline data. This interim baseline data should include Census travel to work data, and suitable local vehicular count data. Some aspects of the Travel Plan and some measures may be provisional. For multiple-occupier commercial sites this will be the overarching Travel Plan that sets the overall outcomes, targets and indicators for the entire site. It should also set the parameters for the subsidiary Travel Plans, which should comply with, and be consistent with, the wider targets and requirements of the overarching Travel Plan. Each occupier will be required to produce their own subsidiary Travel Plan that fits within the overarching Travel Plan when each reserved matters application is submitted. Potential occupiers therefore need to be advised of the Travel Plan requirements. This should be managed and monitored by a dedicated management team (e.g. Travel Plan Management Group) to ensure all occupiers on the site comply with it. The Interim Travel Plan should set out a timeframe for completion of the Full Travel Plan. | • Outline applications, or applications of where the end user are not known |

Area-wide: An Area-wide travel plan should be considered where no single site travel plan can effectively respond to the outcomes required, e.g. in a rural area or a major complex development. There should be targets and objectives that are based on the best interests of the area, with regular consultation between other stakeholders in the area. A Travel Plan Management Group would be essential towards driving the success of the Travel Plan.

What are the thresholds for the use of Travel Plans?

Suffolk County Council has set development scale thresholds above which a Travel Plan should be produced. This requirement applies to both new developments and extensions of existing. In cases of extensions to existing sites, a Travel Plan will usually only be requested if the area of new development exceeds the threshold.

Chapter 4: Creating your Travel Plan

SCC recommends that applicants use the Modeshift STARSfor platform to draft develop and manage their Travel Plan. This platform is used widely throughout the UK and supports the development and implementation of Travel Plans.

Use of STARSfor has the following advantages to the applicant:
- The applicant will use a template approved by SCC and this will save time in drafting and agreeing the Travel Plan and therefore speed up the planning process.
- The platform provides a direct communication channel with the LPA and SCC throughout the planning process. It is a beneficial tool to share data for ongoing monitoring and compliance purposes.

What goes into a Travel Plan?

SCC’s requirements of what content needs to be included in a Residential, Workplace or School Travel Plan can be found in Appendix 6. The list of initiatives for residential and workplace sites are in Appendix 3 and for schools in Appendix 4.
Chapter 5: Approval, Securing, Monitoring and Review of Travel Plans

The following diagram sets out the process for Travel Plan submission, approval and monitoring.

The diagram above describes a successful Travel Plan as one which:
- Is fully assessed prior to its approval in accordance with Suffolk County Council’s methodology (please refer to Appendix 7)
- Contains measures and targets which are secured for implementation by agreement between the Council and the developer/applicant (by means of a s106 Legal Agreement or if appropriate, planning condition)
- Ensures that the outputs of the Travel Plan (normally trip levels and mode split) are annually monitored against the agreed targets and objectives
- Is reviewed annually to assess whether it is delivering its anticipated outputs

How do we secure the Travel Plan?

Travel Plans or Travel Plan measures may be secured by the planning obligations or planning conditions and potentially the Community Infrastructure Levy (CIL) if the Local Planning Authority has it in place.

Planning Obligations

For many applications, the agreed measures and targets specified in the Travel Plan will be secured by means of a planning obligation. Planning obligations should only be used where it is not possible to address unacceptable impacts through a planning condition and where CIL is not appropriate.

Planning obligations are made by deed under Section 106 of the Town and Country Planning Act 1990 and are known as Section 106 agreements and unilateral undertakings. They allow an LPA to enter into a legally binding agreement with a landowner in association with a proposed development to ensure that the development is made acceptable in planning terms. Planning obligations are effective in securing Travel Plans because they:
- Allow for a greater level of detail to be agreed than could reasonably be achieved by a planning condition, e.g. a timetable for the preparation, implementation, monitoring and review of all stages of the Travel Plan;
- Support more effectively the need to secure specific outcomes, targets and sanctions, for example, a monitoring and review programme, detailing the survey methods to be used and who is responsible for funding the surveys, undertaking and reporting results.
- Support commitments involving any third parties e.g. Network Rail

The following items should be set out clearly in the planning obligation:
- 1. The overall outcomes to be achieved by the Travel Plan;
- 2. The indicators and targets and measures to be implemented;
- 3. The process by which such indicators and related targets, and any other measures are to be determined, if not already set out in the Travel Plan;
- 4. The process for the monitoring and review of the Travel Plan;
- 5. Any sanctions where the targets are not being met, and how and when they will be imposed;
- 6. Any procedure for the variation of such targets and/or indicators, or other measures; and
- 7. The person(s) or organisation that will be responsible for the management of the plan (the Travel Plan Co-ordinator)
The way to go

Planning conditions

Planning conditions may be used in certain circumstances, for example, where a limited number of sustainable transport measures are required to make the development acceptable or if it is not feasible to secure the Travel Plan through Section 106 obligations.

The following diagram sets out the process for Travel Plan submission, approval and monitoring.

Sanctions

Travel Plans should contain the remedial actions within the planning obligations used to secure the Travel Plan. Any financial sanction would need to be specified as an amount within the s106 or expressed as a formula to be based on the monitoring results. Sanctions will be linked to an agreed set of remedial measures or a formula-based approach with defined monitoring and review periods (typically five to 10 years or linked to build out). Any sanctions and payments that are enforced will be reasonable and proportionate.

Potential sanctions include:

- Restrictions on future site usage such as the prevention of occupation/ construction of part of the development until a specified element of the Travel Plan has been implemented as agreed.
- Payments to the local authority for implementation of works expected to remedy the failure to achieve agreed outcomes (or use of a Bond deposited with the Authority) to meet the cost of taking action to achieve the agreed outcome e.g. the implementation of hard highway measures, such as a car parking zone around the development.

Planning conditions should be kept to a minimum and only imposed where they are necessary, relevant to planning and to the development to be permitted; enforceable, precise and reasonable in all other respects. Example planning conditions that Suffolk County Council submit to the Local Planning Authority for consideration can be found in Appendix 2.
CIL

Four of the seven LPAs in Suffolk have CIL in place. Details of the items that may be funded by CIL are as follows:

<table>
<thead>
<tr>
<th>LPA</th>
<th>The current 123 List, includes the following relevant items as appropriate for being funded by CIL rather than through planning obligations</th>
</tr>
</thead>
</table>
| Waveney (123 List dated May 2013) | • Strategic highway improvements  
• Provision of cycling and pedestrian infrastructure |
| Suffolk Coastal (123 List dated May 2015) | • Strategic highway improvements including strategic cycling and pedestrian infrastructure |
| Babergh (123 List dated January 2016) | • Provision of passenger transport |
| Mid Suffolk (123 List dated January 2016) | • Provision of passenger transport |

What happens if the Travel Plan cannot be agreed?

Suffolk County Council will negotiate with the applicant, but ultimately may submit a formal objection to the application in the highway response to the Local Planning Authority. An objection would be submitted where a scheme could aggravate existing congestion or public transport capacity problems, resulting in severe impacts. SCC would recommend that the LPA refuse planning permission on the following grounds:

The proposal has failed to provide the required commitments and measures in its submitted Travel Plan which are considered necessary to address the issues identified in the Transport Assessment (or Statement), such that existing traffic congestion and public transport service and capacity problems in the vicinity of the site will be aggravated resulting in severe impacts and the sustainability requirements of the NPPF and the policy requirement of [insert appropriate Local Plan/policy reference] will not be met.

It is up to the LPA to determine the weight they give to a Travel Plan in coming to a planning decision. It will depend on the scheme details and extent to which it materially affects the acceptability of the development proposed.

Funding SCC’s role in Travel Plan monitoring and evaluation

The Travel Plan Evaluation and Support Contribution refers to the ongoing monitoring, evaluation and review of the Travel Plan by SCC once the Travel Plan has been approved. Monitoring of Travel Plans is not a statutory function of the Suffolk County Council, whereas monitoring and administration of planning obligations and development is a statutory function of the granting LPA. In the event of any dispute over payment of the fee, SCC would be unable to supervise and assess the long-term viability and impact of the Travel Plan and would need to call into question the applicant’s commitment to its future operation.

The level of involvement that the applicant will require from Suffolk County Council must be negotiated and agreed so it can be incorporated into the Travel Plan. The Travel Plan Evaluation and Support fee is approximately £1,000 and depends on the size of the development and the complexity of the Travel Plan. A breakdown of the calculations of these costs is outlined in Appendix 5.

The contribution would be agreed in the planning obligation (Section 106 agreement or Unilateral Undertaking).

How do we make sure the Travel Plan is implemented?

In the case that Travel Plans or Travel Plan statements are not being implemented, negotiations between SCC, the LPA and the developer/occupier will take place. This is the preferred option to agree amendments to the Travel Plan, thus ensuring its successful delivery, as part of the review process.

Where negotiation fails, enforcement or remedial actions may be used to deliver specific outcomes/measures. The nature of such enforcement or actions will depend on the nature, scale and severity of the transport impacts if objectives and targets are not achieved.

Where there is a Section 106 Agreement

If the Travel Plan is secured by a Section 106 agreement, enforcement action, including action by way of injunctive proceedings pursuant to Section 106(5) of the Town and Country Planning Act 1990, will be considered by the council and/or the local planning authority. Any action taken will be dependent upon the specific terms of the obligations contained in the agreement and the scale of the non-compliance when weighed against the remedy sought.

Non-compliance of the Travel Plan Section 106 obligation will result in the following:

• Suffolk County Council serve a written Travel Plan Notice to the developer/occupier demanding that the Travel Plan is implemented within 28 days
• Suitable remedial measures and an implementation timetable will be agreed between Suffolk County Council and the developer/occupier
• If the developer/occupier fails to comply with the Travel Plan Notice or the remedial measures timetable, Suffolk County Council will instruct their Legal Team to take formal legal action on the developer/owner for non-compliance with the Section 106 agreement.

If the Travel Plan Targets are not achieved

In the event the Travel Plan targets have not been achieved the following will be required from the applicant:

• Remedial measures (in consultation with Suffolk County Council) to be implemented by the applicant to achieve the agreed Travel Plan target
• Further highway mitigation secured through Suffolk County Council through a Travel Plan Target Bond
• Formal enforcement action in consultation with the relevant Local Planning Authority, if secured by planning condition

Where there is a planning condition

If the implementation of the Travel Plan is secured by planning condition SCC will notify the relevant Local Planning Authority about the non-compliance with the planning condition. An LPA can undertake enforcement action by way of the issue of a Breach of Condition Notice pursuant to Section 187A of the Town and Country Planning Act 1990 or a Breach of Condition Enforcement Notice pursuant to Section 172 of the Town and Country Planning Act 1990.

The Local Planning Authority will work with Suffolk County Council to ensure there is full compliance with the relevant Travel Plan condition in accordance with their relevant planning enforcement process.

There are seven Local Planning Authorities across Suffolk that each has different policies regarding Travel Plans.

Appendix 2 – Example Travel Plan Conditions

Residential Travel Plan:

Condition: Prior to the occupation of any dwelling details of the travel arrangements to and from the site for residents of the dwellings, in the form of a Travel Plan in accordance with the mitigation measures identified in the submitted Transport Assessment [DATED] shall be submitted for the approval in writing by the local planning authority in consultation with the highway authority. This Travel Plan must contain the following:

- Baseline travel data based upon the information provided in the Transport Assessment, with suitable measures, objectives and targets identified targets to reduce the vehicular trips made by residents across the whole development, with suitable remedial measures identified to be implemented if these objectives and targets are not met
- Appointment of a suitably qualified Travel Plan Coordinator to implement the Travel Plan in full and clearly identify their contact details in the Travel Plan
- A commitment to monitor the vehicular trips generated by the residents and submit a revised (or Full) Travel Plan on occupation of the [AGREED TRIGGER POINT] dwelling
- A further commitment to monitor the Travel Plan annually on each anniversary of the approval of the Full Travel Plan and provide the outcome in a revised Travel Plan to be submitted to and approved in writing by the Local Planning Authority until five years has passed after occupation of the final dwelling using the same methodology as the baseline monitoring
- A suitable marketing strategy to ensure that all residents on the site are engaged in the Travel Plan process
- A Travel Plan budget that covers the full implementation of the Travel Plan
- A copy of a residents travel pack that includes a multi-modal voucher to incentivise residents to use sustainable travel in the local area

No dwelling within the site shall be occupied until the Travel Plan has been agreed. The approved Travel Plan measures shall be implemented in accordance with a timetable that shall be included in the Travel Plan and shall thereafter adhered to in accordance with the approved Travel Plan.

Reason: In the interest of sustainable development as set out in the NPPF, and relevant LPA Policies.

Note 1: The Travel Plan and Resident Travel Pack should be produced in accordance with Suffolk County Council’s Travel Plan Guidance (www.suffolk.gov.uk/planning-waste-and-environment/planning-and-development-advice/travel-plans/information-for-developers)

Note 2: A financial contribution may be requested and made payable to the council to cover the resource for any discretionary work the local planning authority or highway authority must undertake with the Travel Plan in accordance with Section 93 of the 2003 Local Government Act and Section 3 of the 2011 Localism Act.

Condition: Within one month of the first occupation of any dwelling, the occupiers of each of the dwellings shall be provided with a Residents Travel Pack (RTP). Not less than 3 months prior to the first occupation of any dwelling, the contents of the RTP shall be submitted to and approved in writing by the Local Planning Authority in consultation with the Highway Authority and shall include walking, cycling and bus maps, latest relevant bus and rail timetable information, car sharing information, personalised Travel Planning and a multi-modal travel voucher.

Reason: In the interest of sustainable development as set out in the NPPF, and relevant LPA Policies.

Condition: Before the development hereby permitted is occupied full details of the electric vehicle charging points to be installed in the development shall have been submitted to the Local Planning Authority and approved in writing.

Reason: To ensure that the development makes adequate provision for electric vehicle charging points to encourage the use of electric vehicles.
in accordance with paragraph 3.4.2 of the Suffolk Guidance for Parking and paragraph 110 of the National Planning Policy Framework.

Condition: Prior to the occupation of any dwelling, details and the location of an on-site car club will need to be submitted to the Local Planning Authority in consultation with the Highway Authority. The cost of implementing the car club will need to be covered by the applicant for a minimum of five years, unless agreed in writing by the Local Planning Authority.

Reason: In the interests of sustainable development and reducing the demand for car parking at the application site in the light of levels of car parking being provided below current adopted parking standards, in accordance with the NPPF, and relevant LPA Policies.

School Travel Plan:

Condition: Prior to first occupation of the school a Travel Plan must be submitted and approved in writing by the Local Planning Authority in accordance with Suffolk County Council’s published School Travel Plan requirements. The Travel Plan must include the following:

a) a commitment to undertake a survey for travel to and from the site for employees, pupils and visitors within six months of occupation;

b) targets for the shift of transport modes into sustainable modes, for all users of the site, with an aspiration to achieve a Modeshift STARS Bronze accreditation;

c) proposals for rectifying failures to meet modal shift targets for a period of five years following the occupation of the building;

d) the proposed arrangements for the monitoring of the Travel Plan for a minimum period of five years.

The Travel Plan shall be kept up to date through regular review and shall be available for examination by the Local Planning Authority at any time.

Reason: In the interest of sustainable development as set out in the NPPF and relevant LPA Policies.

Note: The School Travel Plan must be produced, implemented and monitored in accordance with Suffolk County Council’s School Travel Plan Guidance (www.suffolk.gov.uk/planning-waste-and-environment/planning-and-development-advice/travel-plans/school-travel-plans/)

Workplace Travel Plan:

Condition: Before the commercial development is commenced details of the areas to be provided for secure covered cycle storage for both customers and employees and details of changing facilities including storage lockers and showers shall be submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be carried out in its entirety before the development is brought into use and shall be retained thereafter and used for no other purpose.

Reason: In the interests of sustainable development as set out in the NPPF and relevant LPA Policies.

Note: The employee cycle storage shall be in a lockable facility away from public access to maximise the uptake in cycling among staff.

Condition: Within one month of first occupation, each employee on the commercial site shall be provided with Travel Information Pack that contains the sustainable transport information and measures to encourage the use of sustainable transport. Not less than 3 months prior to the occupation, a completed Travel Information Pack shall be submitted to and approved in writing by the Local Planning Authority in consultation with the Highway Authority and shall include up-to-date walking, cycling and bus maps, relevant bus and rail timetable information, car sharing information, and sustainable transport discounts. The Travel Information Pack shall be maintained and operated thereafter.

Reason: In the interests of sustainable development as set out in the NPPF and relevant LPA Policies.

Condition: Before the development hereby permitted is occupied full details of the electric vehicle charging points to be installed in the development shall have been submitted to the Local Planning Authority and approved in writing.

Reason: To ensure that the development makes adequate provision for electric vehicle charging points to encourage the use of electric vehicles in accordance with paragraph 3.4.2 of the Suffolk Guidance for Parking and paragraph 110 of the National Planning Policy Framework.

Condition: Prior to first occupation [OF THE FIRST COMMERCIAL UNIT], details of the travel arrangements to and from the site for employees [VISITORS AND CUSTOMERS], in the form of a Travel Plan in accordance with the mitigation measures identified in the submitted Transport Assessment [DATED] shall be submitted for the approval in writing by the local planning authority in consultation with the highway authority. This Travel Plan must contain the following:

- Baseline travel data based upon the information provided in the Transport Assessment, with suitable measures, objectives and targets identified to encourage the use of sustainable transport.

- Appointment of a suitably qualified Travel Plan Coordinator [OR TRAVEL PLAN MANAGEMENT GROUP] to implement the Travel Plan in full and clearly identify their contact details in the Travel Plan

- An appointment to monitor the vehicular trips generated by the residents and submit a revised (or Full) Travel Plan no later than six months after occupation [OF THE FIRST COMMERCIAL UNIT]

- A commitment to monitor the Travel Plan annually on each anniversary of the approval of the Full Travel Plan and provide the outcome in a revised Travel Plan to be submitted to and approved in writing by the Local Planning Authority for a minimum period of five years using the same methodology as the baseline monitoring

- A suitable marketing strategy to ensure that all employees [VISITORS AND CUSTOMERS] on the site are engaged in the Travel Plan process

- A Travel Plan budget that covers the full implementation of the Travel Plan [UNTIL FIVE YEARS HAS PASSED AFTER OCCUPATION OF THE FINAL COMMERCIAL UNIT]

- A copy of an employee travel pack that includes information to encourage employees to use sustainable travel in the local area

- The site shall not be occupied until the Travel Plan has been approved. The approved Travel Plan measures shall be implemented in accordance with a timetable that shall be included in the Travel Plan and shall thereafter adhered to in accordance with the approved Travel Plan.

Reason: In the interest of sustainable development as set out in the NPPF, and relevant LPA Policies.

Note 1: The Travel Plan and Resident Travel Pack should be produced in accordance with Suffolk County Council’s Travel Plan Guidance (www.suffolk.gov.uk/planning-waste-and-environment/planning-and-development-advice/travel-plans/information-for-developers)

Note 2: A financial contribution may be requested and made payable to the council to cover the resource for any discretionary work the local planning authority or highway authority must undertake with the Travel Plan in accordance with Section 93 of the 2003 Local Government Act and Section 3 of the 2011 Localism Act

Further planning conditions may also be sought by Suffolk County Council to secure the implementation of Travel Plans where a Section 106 agreement is not appropriate, or additional bespoke Travel Plan measures, such as additional cycle storage, provision of a staff minibus and setting up a Travel Plan Steering Group among other measures.

</table>
## Initiatives to Disincentivise Car Travel

1. Car Free Day
2. Charge for on-site car parking and use revenue to subsidise Travel Plan measures
3. Ensure parking permit system based on parking need
4. Review business mileage policies
5. Removal of car parking spaces
6. Review employee parking entitlement
7. Offer incentives for non-use of car parking space
8. Increased enforcement against unauthorised parking
9. Parking charges increased
10. Other

## Initiatives to Promote Smarter Working

1. Implement flexible working policies and procedures
2. Implement home working policies and procedures
3. Use of web and teleconferencing facilities to limit travel for meetings
4. Utilisation of cycle courier services
5. Prioritise using local suppliers where possible and practicable
6. Other

## Initiatives to Promote Smarter Working

1. Car Free Day
2. Carpooling/sharing scheme established
3. Eco driving promoted
4. Installation of electric vehicle charging points
5. Establishment of car club for site users
6. Park and walk scheme established
7. Provision of car sharing spaces
8. Provision of electric vehicles for staff as pool cars
9. Review vehicle fleet for efficiency savings
10. Use of FORS accredited drivers/vehicles
11. Provision of incentives for Car Sharers
12. Installation of secure parking for motorised scooters / motorbikes
13. Safe and fuel efficient driver training delivered
14. Provision of pool cars for staff
15. Other

## Appendix 4 – School Travel Plan initiatives

### Walking & Scooting

- W1 Living Streets WOW Campaign
- W2 Living Streets Free Your Feet campaign delivered
- W3 Local Walking Reward Scheme
- W4 Living Streets Walk to School Week
- W5 Walk to school month
- W6 5 / 10 Minute walking zone in place
- W7 Educational / Curriculum Walks
- W8 Local Walking bus in place
- W9 Using Walking Bus App
- W10 Walking trips
- W11 Scooter storage installed
- W12 Scooter club
- W13 Active travel breakfast
- W14 - 18 Other walking/scooting initiative
- W15 Parent shelter installed
- W16 Secure buggy storage installed

### Cycling

- C1 Dr Bike/cycle maintenance sessions
- C2 Cycle parking installed
- C3 Bikers Breakfast
- C4 Opportunity to practice cycling skills at break time
- C5 School takes part in The Big Pedal
- C6 Cycle competitions / schools cycle challenge
- C7 Cycle reward scheme
- C8 Bike week
- C9 Cycle club in place
- C10 Pool bike system in place
- C11 Cycle purchase scheme for staff
- C12 Bicycle Security Marking
- C13 Cycle rides/excursions
- C14 Cycle Train / Bike Bus in place
- C15 Bling Your Bike Day
- C16 –18 Other cycling initiatives
- C20 National Cycle Challenge

### Road Safety & Training

- R1 Cycle training for pupils (e.g. Bikeability)
- R2 Learn to Ride
- R3 Balance Bike Training
- R4 Scooter training
- R5 Pedestrian skills training
- R6 Independent travel training
- R7 Young Driver Training
- R8 Cycle training for staff and / or parents
- R9 Road Safety assembly / presentation
- R10 Be Bright Be Seen Activities
- R11 School invites experts / organisations to talk about personal safety
- R12 Safety around large vehicles training
- R13 Use of transition resources
- R14 Pupils monitoring traffic
- R15 School has lobbied for installation of traffic calming outside of school
- R16 School has lobbied for installation of safer crossings on the route to school
- R17 School has lobbied for installation of 20 mph zone outside of school
- R18 Road Safety Day / Week
- R19 –21 Other road safety & training initiatives
- R23 In car safety training for young adults
- R24 Nursery teaches road safety & active travel messages

### Air Quality

- AQ1 School promotes car sharing
- AQ2 Car free days
- AQ3 Car free zone in place
- AQ4 Park and walk / stride scheme
- AQ5 Removal of car parking spaces
- AQ6 Highway code is promoted to students, staff and parents
- AQ7 Parent parking campaign
- AQ8 Parking Pledge Scheme
- AQ9 Eco Driver Training
- AQ10 –12 Other smarter driving initiatives
- AQ13 Anti Idling Initiative
- AQ14 Air Pollution Promotion
- AQ15 National Clean Air Day

### Public Transport

- PT1 Public transport used for school trips
- PT2 School promotes public transport
- PT3 School promotes responsible behaviour on public transport / has bus behaviour policy
- PT4 Private coaches for school trips pick up and set down in safe / accessible places
- PT5 School promotes young person's travel card scheme
- PT6 –8 Other public transportation initiatives

### Promotion

- PR1 Newsletter
- PR2 Info sent to residents / School communicates with residents
- PR3 Local media / Schools gets local media attention
- PR4 Presenting to / sharing ideas with other schools
- PR5 Distributing cycling and public transport maps
- PR6 School has an active travel policy
- PR7 Travel information on notice board
- PR8 Competitions run & promoted within school
- PR9 Assembly
- PR10 Social Media Campaign
- PR11 Sponsored events
- PR12 Parents’ evenings / Induction evenings
- PR13 Information on website
- PR14 Councillor / MP / Mayor invited to an event
- PR15 Within the Prospectus
- PR16 Letter from Head Teacher to Parents
- PR17 New parent pack
- PR18 Transition activities
- PR19 School Railing Banners
- PR20 JTA / YTA / JRSO in place
- PR21 Travel to school information maps created
- PR22 –24 Other promotion method
- PR27 Active travel shop / enterprise

### Curriculum

- CU1 School takes part in competitions promoted by others
- CU2 School teaches the health benefits of safe / active travel
- CU3 School teaches environmental benefits of active travel
- CU4 Theatre in Education on sustainable travel or road safety
- CU5 Bike maintenance lessons
- CU6 Cycling lessons [PE]
- CU7 Road safety lessons
- CU8 Pupils use school travel survey data from STARS in lessons
- CU9 School uses Living Streets WOW Travel Tracker to collect data
- CU10 –12 Other curriculum initiatives
- CU13 School collects postcode data
Partnerships
P1 School works with Police/ Safer Neighbourhood Team/ PCSO to promote safe & sustainable travel
P2 School works with other schools to promote safe and sustainable travel
P3 School presents their work to other groups
P4 School works towards the Sustainable Schools Framework
P5 School works with Local councillors/ Mayor/ MPs
P6 School has achieved Eco School status

Definitions:
“Full Travel Plan”
a fully developed Travel Plan based on the Interim Travel Plan and travel monitoring data of the end users providing a package of measures aimed at promoting more sustainable travel choices and reducing reliance on the private car in relation to the Development;

“Full Travel Plan Monitoring Report”
means the annual report that is submitted to the County Council by the Travel Plan Coordinator in a form acceptable to the County Council acting reasonably that provides a summary of the traffic counts and resident surveys to demonstrate that the Full Travel Plan objectives and targets are being achieved;

“Full Workplace Travel Plan”
a fully developed Travel Plan based on the Interim Workplace Travel Plan and travel monitoring data of the end users providing a package of measures aimed at promoting more sustainable travel choices and reducing reliance on the private car in relation to the Development

“Full Workplace Travel Plan Monitoring Report”
the annual report that is submitted to the County Council by the Travel Plan Management Group in a form acceptable to the County Council that provides a summary of the traffic counts and surveys to demonstrate that the Full Workplace Travel Plan objectives and targets are being achieved

“Interim Residential Travel Plan”
means a management plan in which the Owner outlines the interim targets, objectives, measures and remedial measures it will take to manage the travel needs of the Development, includes a commitment to carry out travel monitoring and to capture the data of the travel monitoring to help inform the Full Travel Plan and gives

“Interim Workplace Travel Plan”
a management plan in which the Owner outlines the interim targets, objectives, measures and remedial measures it will take to manage the travel needs of the Development, includes a commitment to carry out travel monitoring and to capture the data of the travel monitoring to help inform the Full Workplace Travel Plan and gives

“Resident Travel Pack”
means a travel pack provided to each Dwelling that includes bus tickets or cycle voucher of equivalent value for every resident, current public transport information for bus and rail services, provision of maps of pedestrian and cycle routes, car sharing information, personalised Travel Plans and information to promote the benefits of sustainable travel in the local area to encourage sustainable travel;

“Travel Plans”
means together the Interim Travel Plan and the Full Travel Plan;

“Travel Plan Target Bond”
means a bond entered into by the Owners approved in writing by the County Council in favour of the County Council in the sum [INSERT SUM OF BOND] such sum being the sum required, in the event that the Owner defaults in achieving the Travel Plan targets identified in the [INTERIM TRAVEL PLAN] and the County Council calls upon the bond (including the whole) as is required to undertake any works on the highway it sees fit to mitigate the additional vehicular trips through the failure of the targets in the Travel Plans either itself or through an agent appointed or instructed by the County Council.

Appendix 4 – Example Travel Section
106 Obligations
The Owner covenants to pay further

The Owner hereby covenants not to Occupy

The Owner covenants to pay the first
Contribution to remedy the failed targets and a reasonable time

and/or actions required to be taken by the Owner
specifying the remedial Travel Plan measures
Interim Travel Plans and/or the Full Travel Plan
to meet one or more of the targets identified in the

means a notice in writing served on the Owner
by the County Council where the Owner has failed to
meet one or more of the targets identified in the
Interim Travel Plans and/or the Full Travel Plan
specifying the remedial Travel Plan measures
and/or actions required to be taken by the Owner

Travel Plan Coordinator means the person appointed by the Owner to fully
implement and monitor the Travel Plans;
"Travel Plan Evaluation and Support Contribution" means the sum of one thousand pounds (£1,000) BCIS Indexed per annum payable in accordance with [INSERT RELEVANT SECTION] of this Deed towards the costs of the County Council monitoring the implementation of the Travel Plans;
"Travel Plan Management Group" a working group that incorporates a member or representative of each Commercial Unit to coordinate, implement and deliver the Travel Plans
"Travel Plan Remedial Measures Notice" means a notice in writing served on the Owner by the County Council where the Owner has failed to meet one or more of the targets identified in the Interim Travel Plans and/or the Full Travel Plan specifying the remedial Travel Plan measures and/or actions required to be taken by the Owner to remedy the failed targets and a reasonable time

**Obligations:**

**Travel Plan Evaluation and Support Contribution**

- The Owner covenants to pay the first instalment of the Travel Plan Evaluation and Support Contribution of £1,000 (one thousand pounds) BCIS Indexed prior to the first Occupation of the one hundredth (100th) Dwelling
- The Owner hereby covenants not to Occupy or allow or permit Occupation of more than ninety nine (99) Dwellings until the Full Travel Plan have been submitted to, and approved in writing by, the County Council
- The Owner covenants with the County Council to establish the Travel Plan Management Group and to inform the County Council on an annual basis on the anniversary of the first occupation of the one hundredth (100th) Dwelling the Full Travel Plan Monitoring Report for a period of five years or until one year after occupation of the final Dwelling, whichever is the latter
- The Owner hereby covenants not to Occupy or permit or allow Occupation of more than three months prior to the Occupation of the first (1st) Dwelling
- The Owner hereby covenants not to Occupy or permit or allow Occupation of any Dwelling unless and until the Owner has entered into the Travel Plan Bond and has sent a copy of the Travel Plan Bond to the County Council.

**Residential Travel Plan**

- Unless otherwise agreed with the County Council the Owner covenants to implement the Interim Residential Travel Plan in full
- The Owner covenants to submit a draft Resident Travel Pack to the County Council for written approval by the County Council no less than three months prior to the Occupation of the first (1st) Dwelling
- The Owner hereby covenants not to Occupy or permit or allow Occupation of any Dwelling until the draft Resident Travel Pack has been submitted to, and approved in writing by, the County Council
- The Owner covenants to provide a Resident Travel Pack to each Dwelling forming part of the Development within one (1) month of the first Occupation of each Dwelling
- The Owner covenants to submit the Full Travel Plan to the County Council for written approval by the County Council prior to the first Occupation of the one hundredth (100th) Dwelling
- The Owner hereby covenants not to Occupy or permit or allow Occupation of more than

**Workplace Travel Plan**

- The Owner covenants to submit the Interim Workplace Travel Plan to the County Council for written approval by the County Council prior to the Commencement of Development;
- The Owner hereby covenants not to Commence Development or permit or allow the Commencement of Development unless and until the Interim Workplace Travel Plan has been submitted to, and approved in writing, by the County Council;
- The Owner covenants to implement the Interim Workplace Travel Plan as approved by the County Council in full
- The Owner covenants to submit the Full Workplace Travel Plan to the County Council for written approval by the County Council no more than six (6) months after the first Occupation of the first Commercial Unit.
- The Owner hereby covenants not to Occupy or permit or allow Occupation of any more Commercial Units than Occupied as at the date six (6) months after the first Occupation of the first Commercial Unit until the Full Workplace Travel Plan has been submitted to, and approved in writing by, the County Council.
- The Owner covenants to implement the approved Full Workplace Travel Plan in full
- The Owner covenants to submit to the County Council on an annual basis on the anniversary of the date that the Full Workplace Travel Plan is first implemented the Full Workplace Travel Plan Monitoring Report until the anniversary of the date that the Full Workplace Travel Plan was first implemented which falls after the fifth (5th) anniversary of the date of Occupation of the final Commercial Unit forming part of the Commercial Development

**Travel Plan Remedial Measures Notice**

- The Owner covenants to carry out the measures and/or actions specified in the Travel Plan Remedial Measures Notice served by the County Council on the Owner within the timescales identified within the Travel Plan Remedial Measures Notice
- If the Owner has failed in the reasonably opinion of the County Council to comply with the measures and/or actions specified in a Travel Plan Remedial Measures Notice within the timescales specified therein or on the event of a dispute the timescale determined through the dispute resolution procedure pursuant to [RELEVANT CLAUSE] the Owner acknowledges that they will be in breach of this Agreement and that the County Council may take such action in respect of that breach or breaches as it considers appropriate without further recourse to the Owner.
County Council Travel Plan Obligations:

• The County Council shall if requested to do so in writing after the expiry of two (2) years of the date that the final instalment of the Travel Plan Evaluation and Support Contribution was paid within a further period of one (1) year pay to any person such amount of the Travel Plan Evaluation and Support Contribution paid by that person in accordance with the provisions of this Agreement which has not been committed or expended by the County Council in accordance with the provisions of this Agreement together with any interest accrued at the Bank of England Base Rate minus 2 basis points, compounding annually at financial year end, such payment to be made within twenty eight (28) Working Days of such request.

• When the Travel Plan Evaluation and Support Contribution paid to the County Council pursuant to this Agreement has been spent or committed the County Council shall upon written request by the Owner after the expiry of two (2) years of the date that the final instalment of the Travel Plan Evaluation and Support Contribution was paid within a further period of one (1) year notify the Owner that such monies have been spent or committed such notice to include full details of what the said monies were spent on or committed to.

• To serve a Travel Plan Notice on the Owner if the Owner fails in the reasonable opinion of the County Council to perform the obligations and deliver the requirements of the Travel Plans specifying the actions required by the Owner.

• The County Council may if requested to do so in writing by the Owner authorise the surety to release up to [PERCENTAGE] of the Travel Plan Bond following the submission to the County Council of the Full Travel Plan Monitoring Report for that year by the Owner PROVIDED THAT the County Council is satisfied with, and has approved in writing, the Full Travel Plan Monitoring Report and the County Council has been provided with sufficient evidence, as is required by the County Council, to demonstrate the Owner compliance with the Full Travel Plan, as approved.

Appendix 5 – Monitoring Fees

This charge will, only cover reasonable costs incurred and will not generate a profit. Please note that these fees are indicative and will vary from site to site:

Notes:

*Assume 4 hours in total including travel time

SCC Travel Plan Officer hourly rate (including on-costs) £40
SCC Principal Transport Planner Hours £50
SCC Transport Policy and Development Manager Hours £75
**INTRODUCTION**

1. Summary of Travel Plan and reasons for securing (i.e. planning requirement).

**TRAFFIC COUNTS**

1. These need to be taken for a two-week period outside of school holidays.
2. These need to be compared to the predicted worst-case journeys in the supporting Transport Assessment.

**QUESTIONNAIRES**

1. All question and results from the questionnaire must be provided.
2. Any comments (i.e. “other” response) that support the results from the questionnaire must be listed.
3. A summary of the number of people surveyed, the response rate and the date(s) the survey was undertaken needs to be provided.

**OTHER**

- If multi-modal vouchers were provided, what is the current level of their uptake?
- If cycle parking was available, what is the upload rate for parking?
The way to go
