HAVE YOUR SAY
ON ACTIVE TRAVEL IMPROVEMENTS FOR WALKING AND CYCLING

We’re making it safer and easier for you to walk and cycle as we move out of the COVID-19 lockdown.

WHAT ARE WE DOING?

In May 2020 Central Government announced a £250m investment on emergency interventions to make walking and cycling safer during the COVID-19 pandemic to avoid overcrowding our transport network. Suffolk has been awarded £1.685m.

The plans include:

• Installing ‘pop-up’ cycle facilities.
• Using cones, planters and barriers to widen footpaths along busy narrow lengths of roads.
• Introducing pedestrian and cycle zones to restrict access for motor vehicles at certain times (or at all times) along streets / areas in neighbourhoods, town centres and high streets.
• Providing additional cycle parking facilities at key locations, such as outside stations and in high streets.
• Changing junction designs to accommodate more cyclists.

HOW CAN YOU FEEDBACK?

These are temporary changes, so we are keen to hear from you before decisions are made on any permanent changes.

Have your say by filling in our short survey at www.suffolk.gov.uk/walkingandcycling or scan the QR Code:

Once the changes have been in place for a few weeks we will also write to residents in the immediately effected areas to request their feedback and we will publicise the survey widely to maximise the opportunity for a wider community response.

WHAT HAPPENS NEXT?

After 6 months we will need to decide if these changes are going to become permanent.

The feedback you’ve given us will help inform Suffolk County Council’s decision on each of the schemes.
