Natural England’s Representations on Suffolk Minerals and Waste Local Plan

Matter 4 – Waste policies and sites

**Issue 1:** Whether the policies are positively prepared in terms of making adequate provision for waste.

**Issue 2:** Whether the policies are consistent with national policy with specific regard to protection of the environment.

**Issue 3:** Whether specific policy requirements are justified and effective.

*Policy WS1: Sizewell A Nuclear Power Station*

**113 Should criterion (f) also require surface water mitigation measures?**
We agree that this should be included due to likely adverse effects on designated sites.
