

FACTSHEET - Woolverstone Roadside Nature Reserve No. 46

The RNR is indicated in orange.

All maps © Crown Copyright. All rights reserved. Suffolk County Council Licence No. 100023395 2016

Site Name and Number	Woolverstone 46
Is there a Warden?	No
Map Reference	TM 18253765 to TM 18303768
Road Number	U4108
Highways Area	Central
County Wildlife Site?	Babergh 166
RNR Area	90m ²
Road Sides (length)	North:61
Cutting time	SEP
Criteria	Orpine

For further information on this RNR contact Sue Hooton on:

Tel: 01473 264784, Mob: 07834 676875

Email: ecology@suffolk.gov.uk

Orpine can be found on this RNR.

What is an RNR?

An RNR is a Roadside Nature Reserve. Under the Roadside Nature Reserve Scheme, the grass verges are individually managed to benefit the scarce or unusual plants or fungi growing in the stretch protected from normal highways management. RNRs may also be designated as County Wildlife Sites (CWS) and several are Sites of Special Scientific Interest (SSSIs).

RNRs are marked by two white posts, one at each end, with a black arrow on both posts pointing inwards to the RNR. This is to indicate to the grass verge cutters that this specific site is an RNR and is not to be cut outside of its designated cutting times.

Why are we conserving them?

Many roadside verges are very old, on the edges of routes that have changed little over the centuries. These verges are the remains of the semi-natural grassland that was once widespread throughout the country, but which has declined by 98% since 1945, as a result of changes of land use, intensive cultivation and drainage.

By careful management of the sites we aim to preserve the species on RNRs, giving future generations the chance to enjoy these remnants of ancient grassland meadows.

How can you help?

You can help by keeping an eye on the RNR, and letting us know if anything happens to it, such as material being dumped, or the marker posts being damaged. Even if we have a warden we might need help with raking after the grass is cut. If you would like to help out or be a RNR warden please get in touch, we will be happy to talk to you about the RNR and discuss the warden's role with you.

HEALTH AND SAFETY

This is a LOW RISK site.

Volunteers are permitted to work on this RNR provided they take appropriate safety precautions.
