

## Family Services: The Teams and the Education Settings They Support: Academic Year 2020 / 2021

**The SEND Family Services** (within SCC Inclusion Service) lead on the support of children, young people and their families so that with the necessary skills, young people progress into adulthood to further achieve their hopes, dreams and ambitions. Fundamental to this is our joint partner commitment to the delivery of services through a key working approach for all.

### **The six locality-based Family Services Teams:**

- Guide children, young people and their families through their education pathway and/or SEND Journey
- Support children and young people who are at risk of exclusion or who have been permanently excluded
- Ensure that assessments, including education, health and care needs assessments, provide accurate information and clear advice and are delivered within timescales
- Monitor the progress of children and young people with SEND in achieving outcomes to prepare them for adulthood and offer support and guidance at transition points

### **Team members will:**

- Create trusting relationships with children, young people and families by delivering what they agree to do
- Build effective communication and relationships with professionals, practitioners and education settings
- Enable the person receiving a service to feel able to discuss any areas of concern / issues and that appropriate action will be taken
- Be transparent and honest in the message they are delivering to all, and will give a clear overview of the processes and procedures
- Be effective advocates for children, young people and families

For young people and families, **mainstream schools, local alternative provision and specialist schools, settings and units**, your primary contacts will be the **Family Services Co-ordinators and Assistant Co-ordinators**. The education settings that each team covers, their email address, and the team members and their contact numbers are available.

The **Family Services Managers and Lead Co-ordinators** manage the teams and work with **independent specialist providers**, supporting the children and young people accessing these settings and their families.

Young people, families, practitioners and providers can contact Family Services by phone, email or letter. As staff cover a range of commitments and attend a variety of meetings in and out of the office, you may not receive an immediate response. We are committed to responding to phone calls within a maximum time of 3 working days and replying to emails and letters within a maximum time of 5 working days. When staff are not in work for an extended period of time, their answerphone message or out of office email message will provide details of who to contact in their absence. If you do not receive a response or a reply from your local team, please contact the Lead Co-ordinator in the first instance, who will follow this up for you. If you have outstanding enquiries, you can contact the Family Services Manager for your local team.
